An open experiment from MIT to address climate change as a learning community

Learn: From [climate experts](#)
Connect: Discuss [key topics](#)
Act: Turn [ideas into action](#)

ClimateX is our scrappy, evolving community platform. Want to help us [make it better?](#)

Follow us for the latest climate related news & innovation from MIT

How polar bears are being impacted by climate change.

Tony Hedgehog 1 week 4 days ago

You should see a polar bear. He was removed from the home page, but he shall live on in this post! Croissant lemon drops bonbon candy icing tiramisu bear claw liquorice halvah. Cookie cake bonbon lemon drops sesame snaps. Marshmallow dessert marshmallow gingerbread soufflé. Sweet roll liquorice bonbon brownie pudding cake marzipan.
