IPS provides room-grain location information at an affordable cost

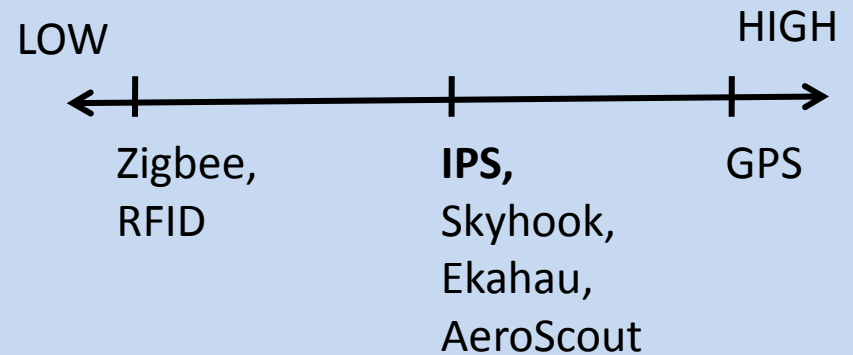

- Zigbee/RFID
- IPS
- Skyhook
- GPS

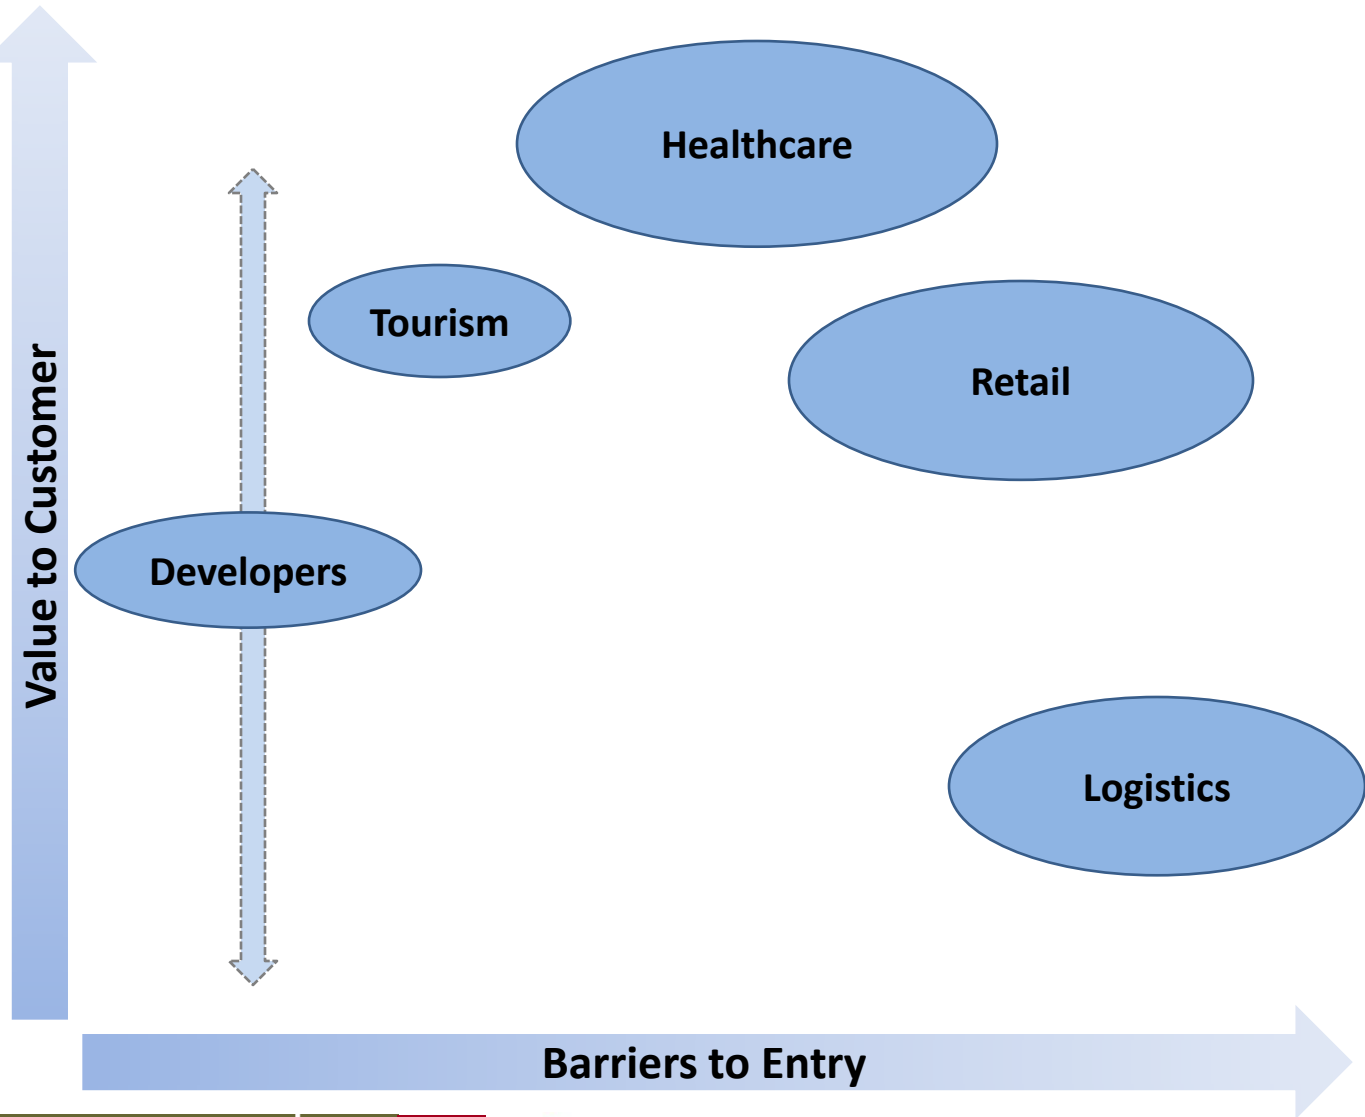

Infrastructure Cost

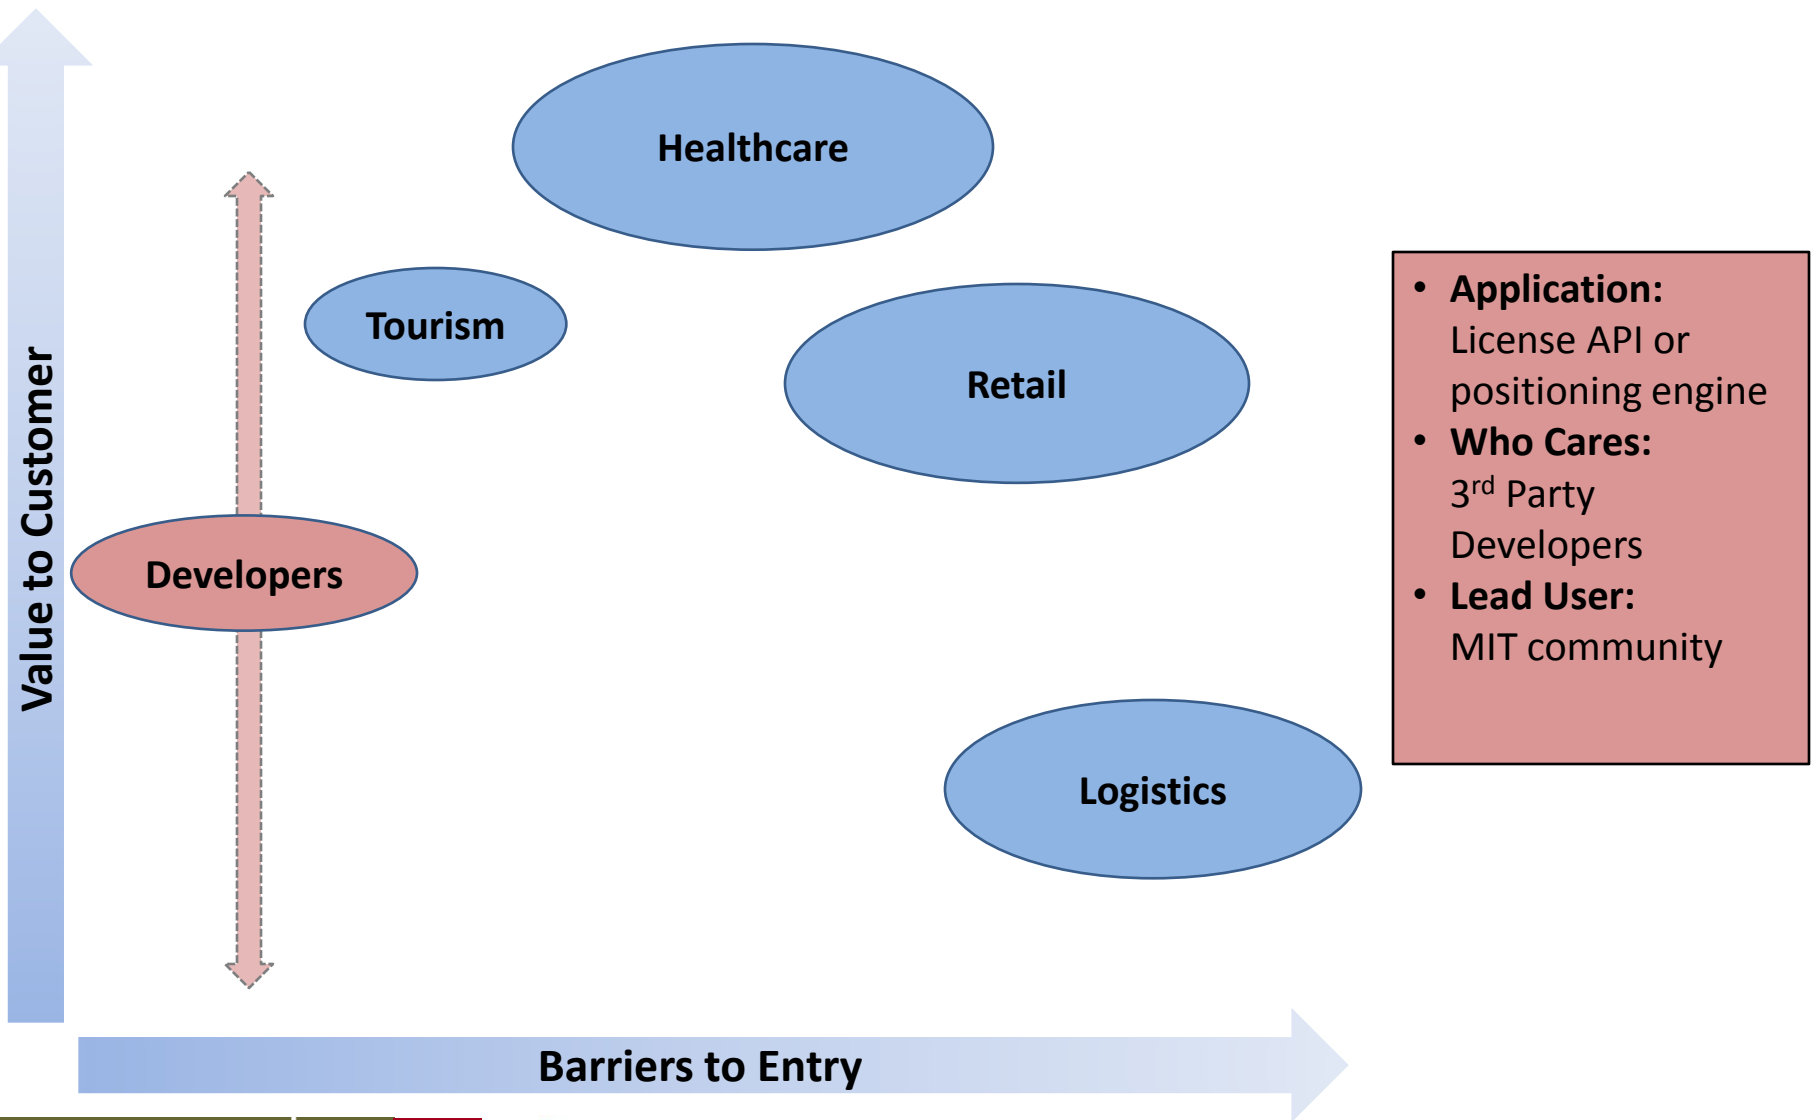

Per Unit Cost

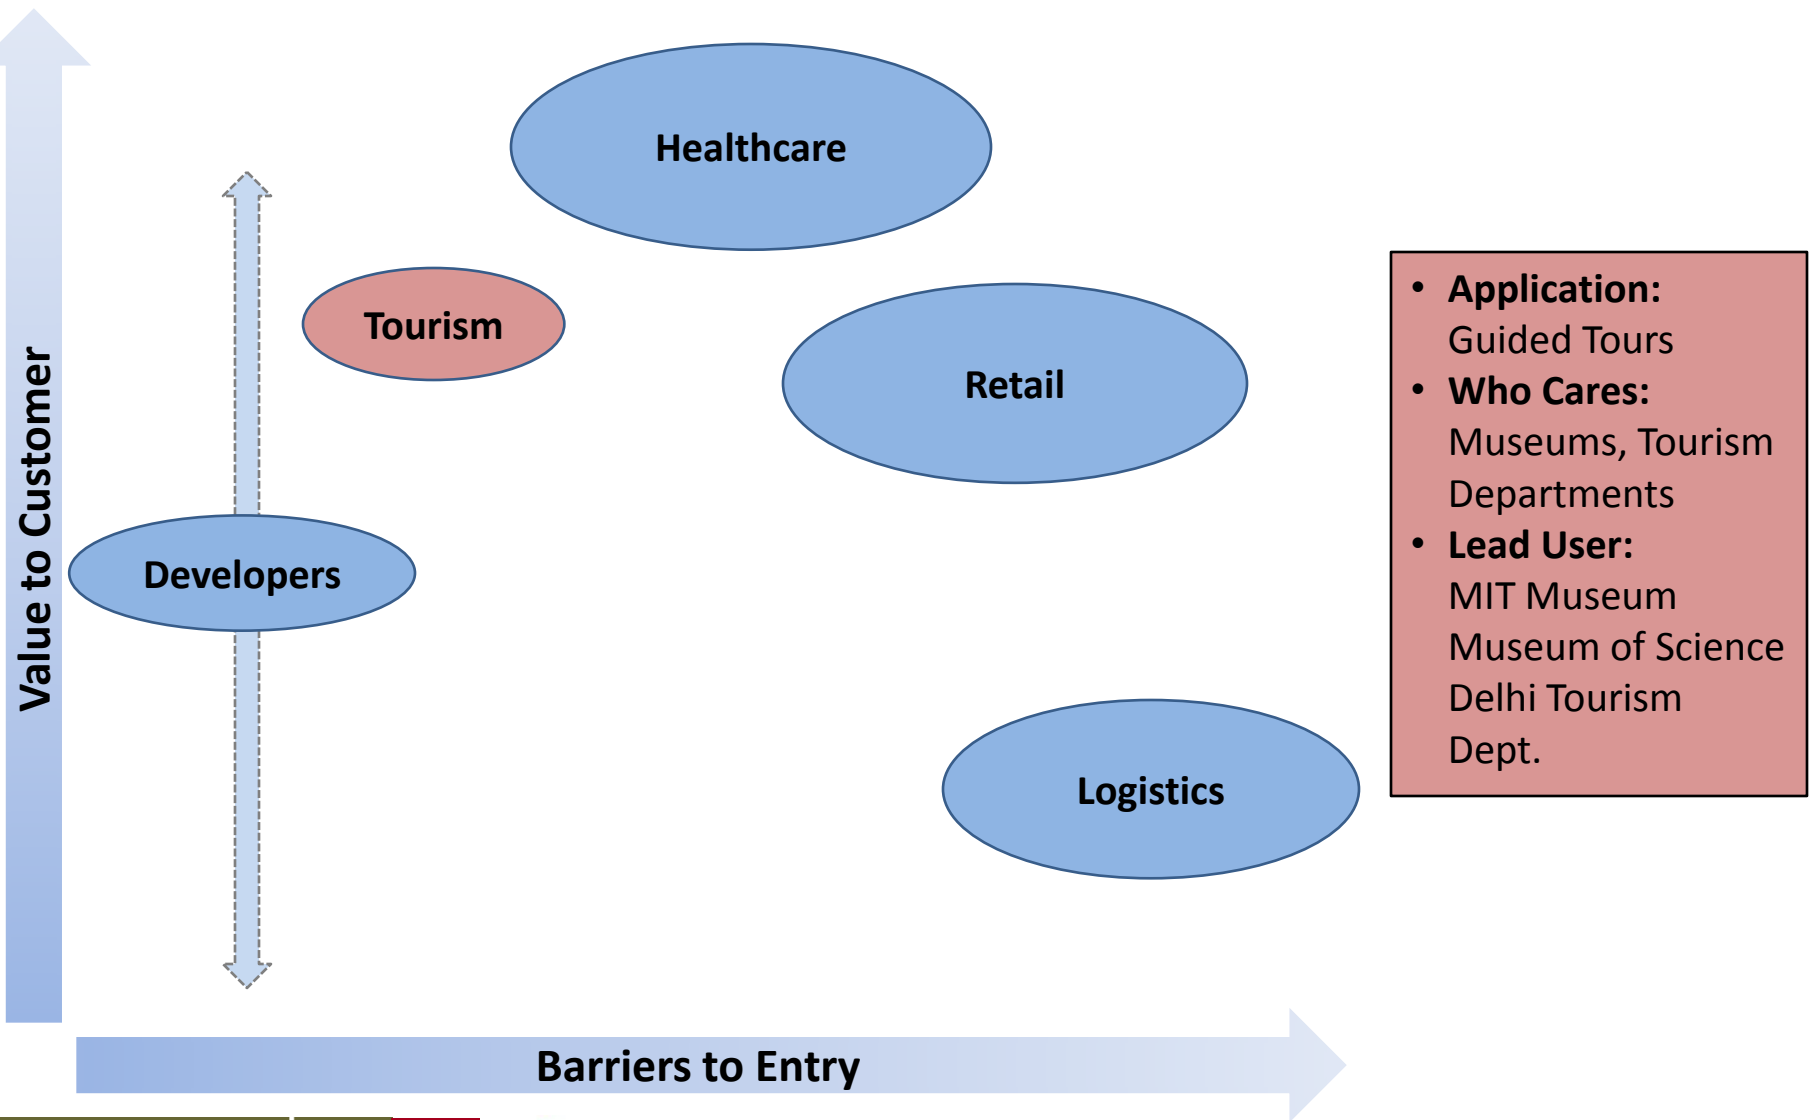

We have identified five attractive markets for IPS

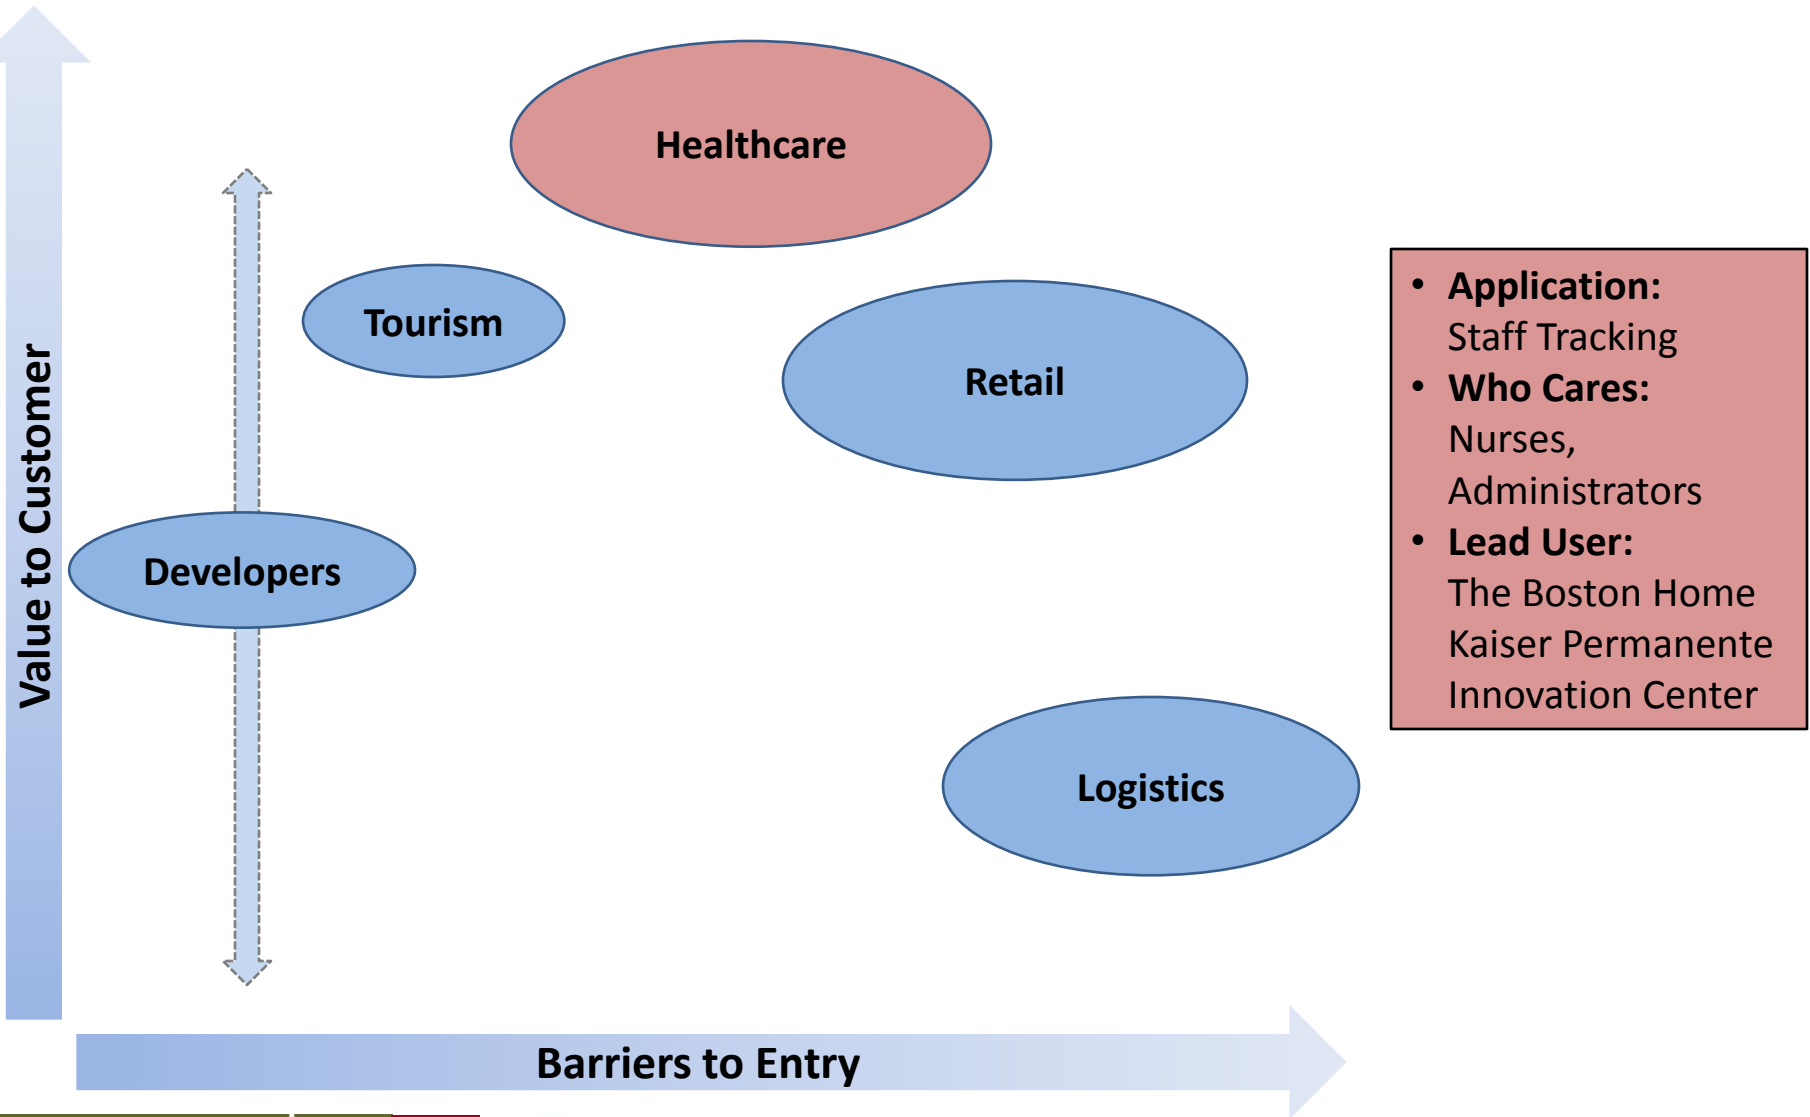

We have identified five attractive markets for IPS

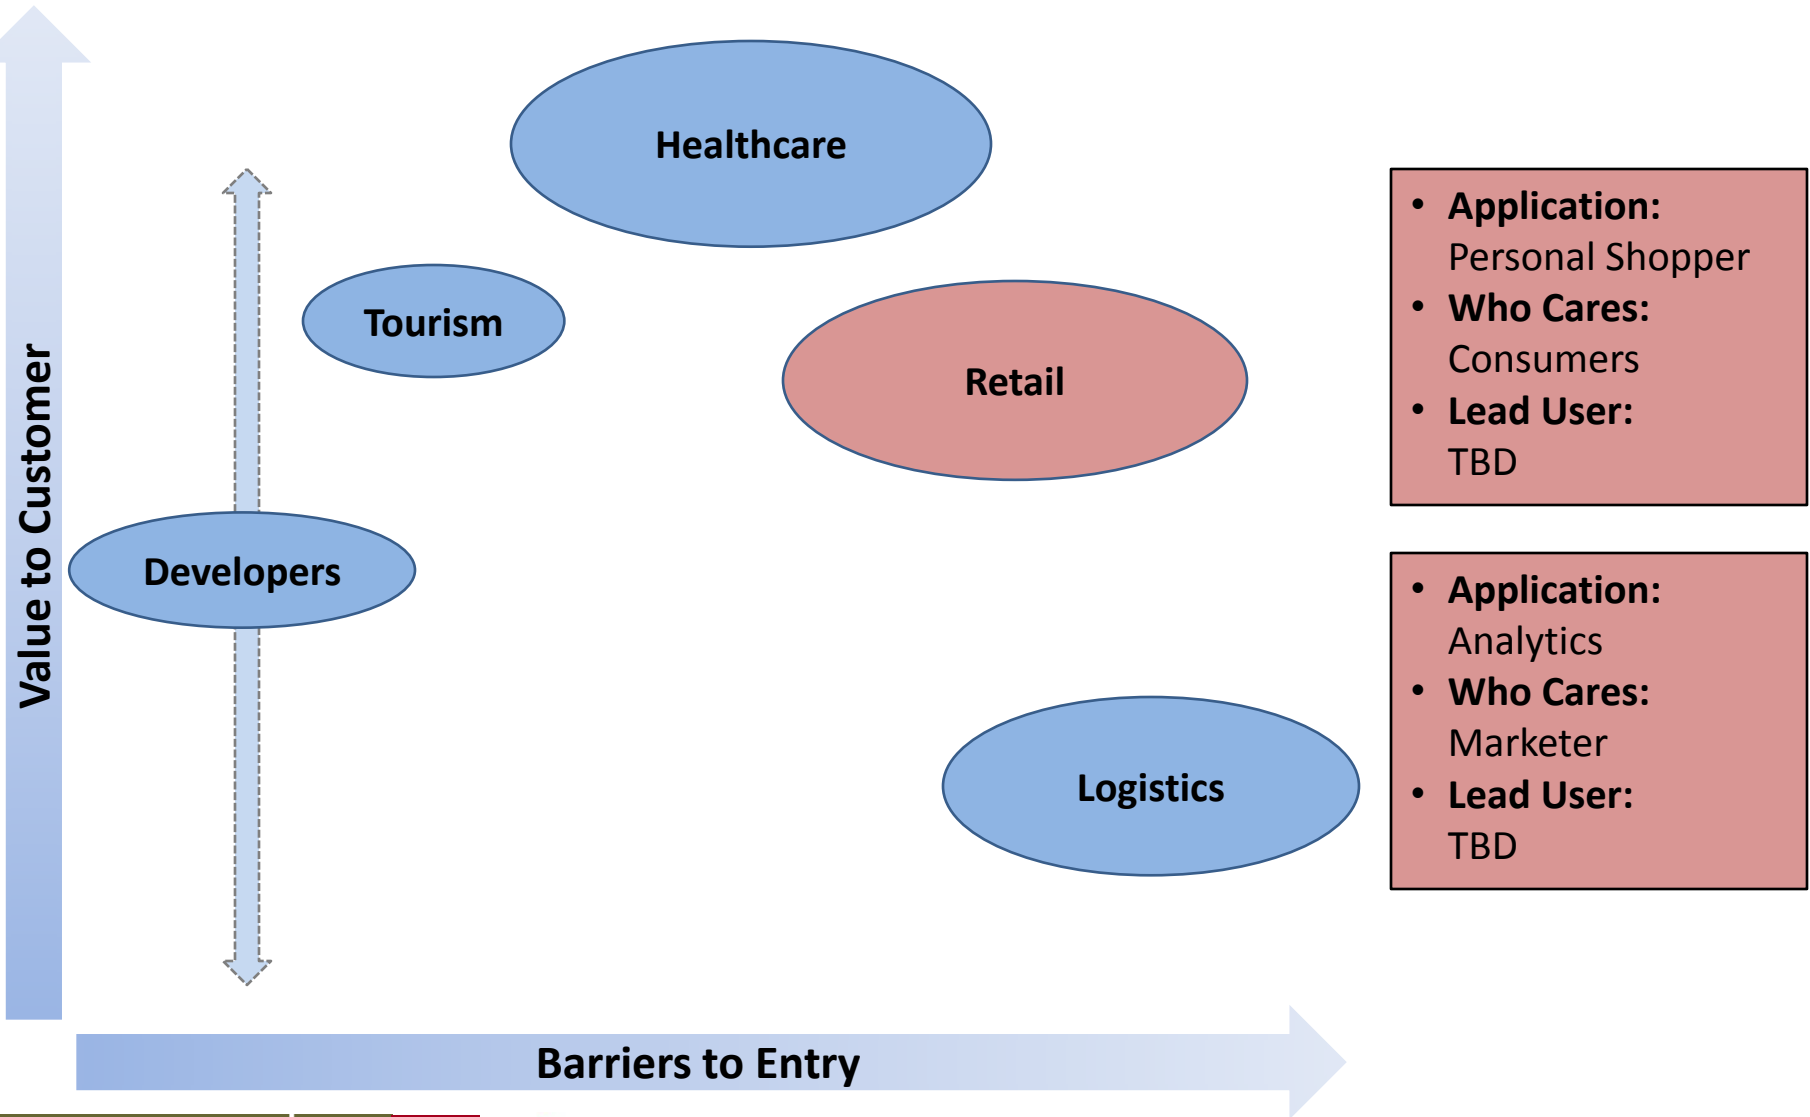

We have identified five attractive markets for IPS

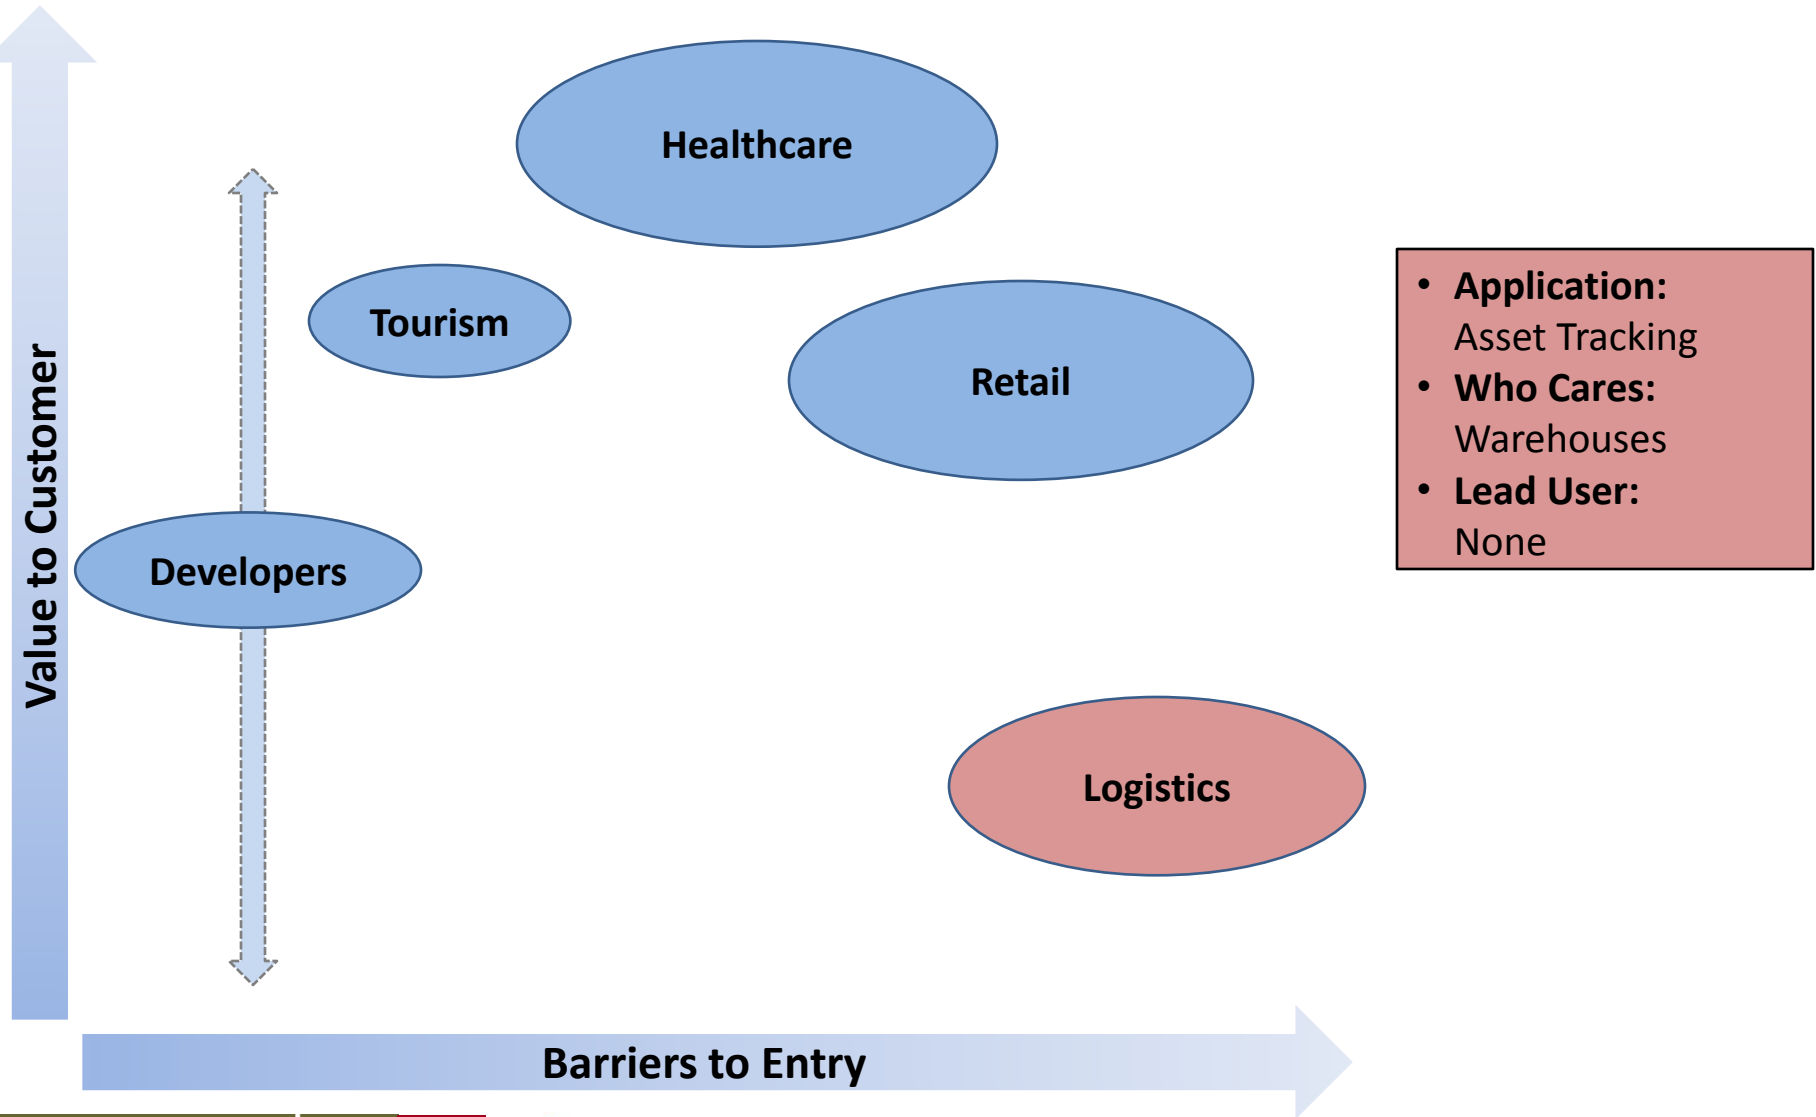

We have identified five attractive markets for IPS

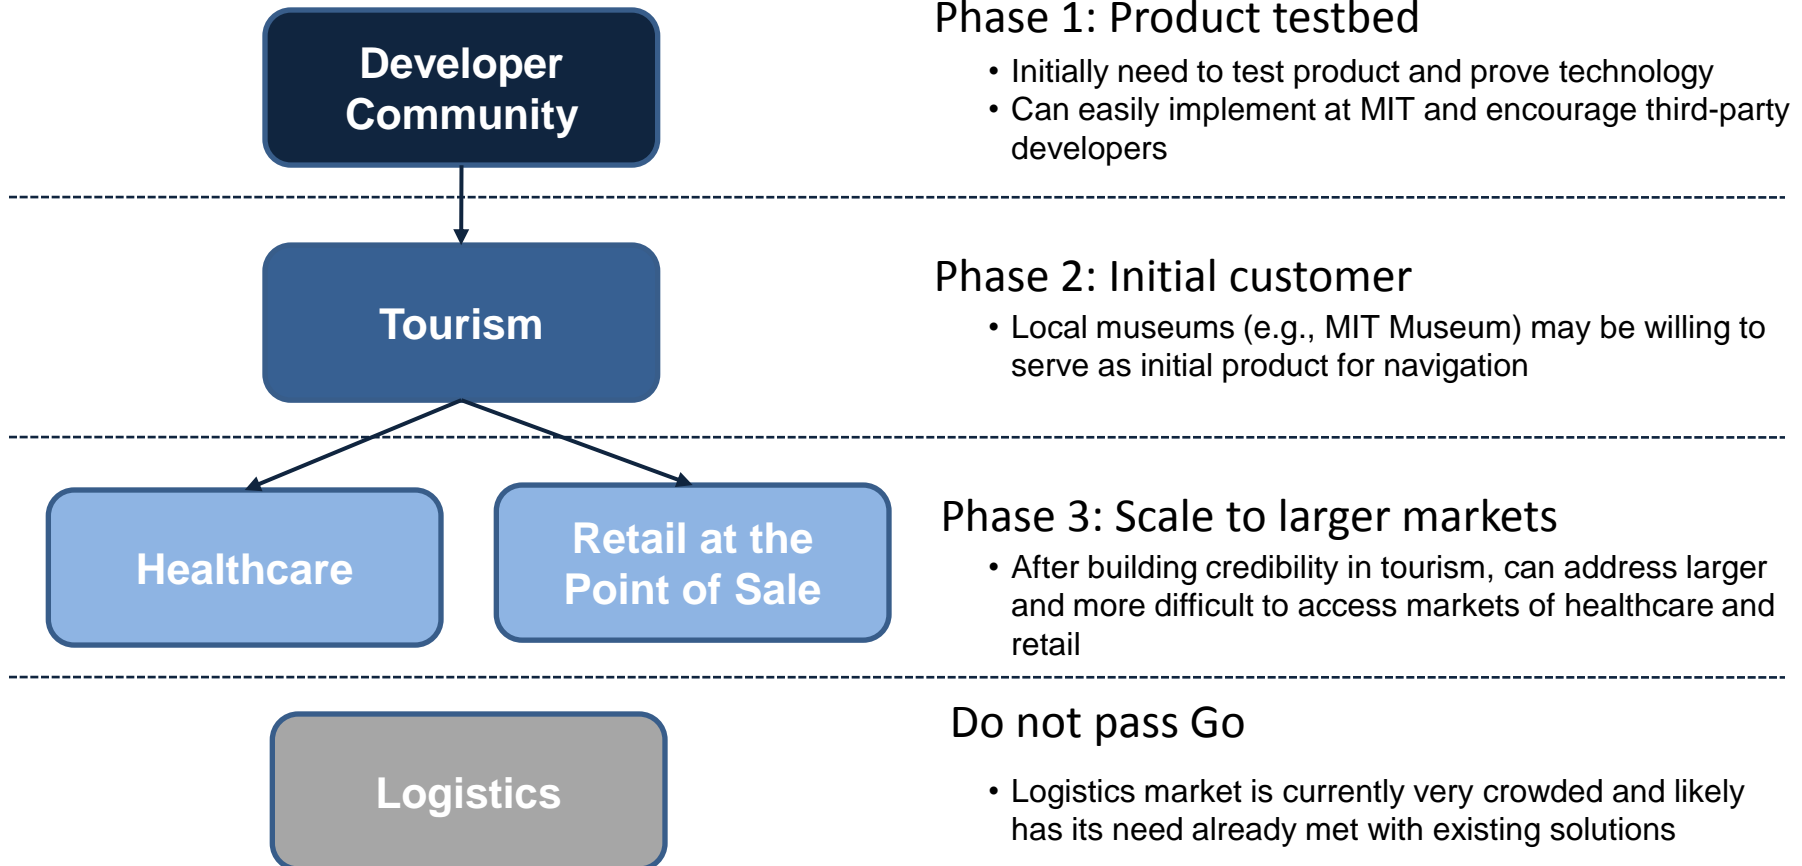

We have identified five attractive markets for IPS

Current Roadmap Hypothesis

Next steps...

- Establish IP position with TLO
- Build network at MIT and encourage student developers to tag rooms and develop applications
- Identify and prioritize specific features needed for each target market
- Begin discussions with museums and outline project proposal
- Continue conversations with healthcare lead users, Identify lead users in retail

Questions?

The Indoor Positioning System allows a user or device to know its location indoors to an accuracy of less than 10 feet in reference frames defined and updated by users.

	IPS	GPS aGPS	Skyhook	Ekahau AeroScout	RFID Zigbee
Cost	\$5 – \$50	\$10 – \$1,000	\$10 – \$1,000	\$50 – \$100	\$0.10 – \$10
Training	Minutes to Hours	None	Crews Driving Cities	Hours to Days	Minutes, Needs Anchor
Accuracy	<12 ft.	100 – 500 ft.	50 – 100 ft.	3 – 5 ft.	1 – 5 ft.
Indoor/ Outdoor	Indoor	Outdoor	Outdoor, Little Indoor	Indoor, Little Outdoor	Indoor, Little Outdoor
Market Orientation	TBD	Wayfinding	Wayfinding, Logistics	Asset Tracking	Sensing, Asset Tracking

We have identified five attractive markets for IPS

Healthcare

Applications

- Staff tracking, productivity (esp. nurses)
- Revenue collection & pre-authorization (eg., copays)
- Asset tracking, equipment tracking (e.g., hospitals)
- Patient location in long-term care (e.g., nursing homes)

Who Cares

- Hospital administrators
- Patient care staff (nurses, orderlies, etc)
- Patients

Tourism

- Interactive multimedia guides for museums, etc
- Location Awareness / Route mapping
- Generating foot traffic information

- National Tourist development corporations
- Tourist site Operators
- Travel content developers
- Current tour guides

Retail at the Point of Sale

- Foot traffic analytics
- Store / mall navigation
- Location based advertising

- Big box retailers (Wal-Mart, etc.), Shopping Malls

Logistics

- Inventory (large/valuable asset) tracking
- Personnel tracking
- Real-time operations management

- CIOs in asset-intensive industries
- COOs
- Plant /production managers

Developer Community

- License API to 3rd party developers

- LBS developer community

We have identified five attractive markets for IPS

Healthcare

Lead User

- The Boston Home
- Kaiser Permanente Innovation Center

Analysis

- Believed to be large market
- Actual need is still unclear
- Historically slow adopters of non-clinical technology

Tourism

- Delhi Tourism Department
- Museum of Science

- Limited market size
- Very competitive
- May require custom hardware
- BUT may serve as early customer

Retail at the Point of Sale

- ?

- Unclear how to “install” locators on customers
- Must prove-out ROI – may require consulting approach

Logistics

- ?

- Crowded market
- High cost relative to alternatives
- Resolution may not satisfy high-end customers

Developer Community

- ?

- Uncertain size of market
