About the April 2017 Maintenance Release

The e-Builder monthly maintenance releases contain a list of resolved cases for the month.

Your Opinion Matters

We rely on your feedback to better serve you. If you have ideas about improving our product or service, please don't hesitate to let us know. Below are four ways to reach us.

- **Like/Dislike**  – Located in the banner of e-Builder Enterprise™ are like and dislike buttons. Click these to express your opinion of a particular page. This feedback is used to help prioritize upcoming product enhancements.
- **e-Builder Community** – The Ideas section of the e-Builder Community gives you a platform to share your thoughts on how to make e-Builder better. You can read and vote on the ideas of fellow e-Builder users or post your own. Those with the highest vote totals are noted when forming e-Builder's roadmap. To access the Community, click the arrow next to your username within the banner of e-Builder Enterprise, and then click eB Community.

- **Support** – Our Support staff is always available to meet your needs. To speak to a live customer service representative, call us within the U.S. at 888-288-5717 and outside of the U.S. at 800-580-9322, or email us at support@e-builder.net.
- **Annual Technology and User Conference** – The annual e-Builder Technology and User Conference offers a unique and up-close opportunity to gain insight into e-Builder product direction, learn best practices from industry professionals and peers, and to exchange information and ideas with members of the e-Builder community.

What's included in this Document

- A list of resolved cases

Release Note Change Log

The release note change log includes all changes made to this version of the Release Notes document.

Date	Version Number	Description
April 20, 2017	1.0	Initial Release

Resolved Cases

The following is a list of resolved cases for the month of August. If you have any questions regarding this maintenance release, please contact e-Builder Support at 888-288-5717 or via email at support@e-builder.net.

Module	Number of Resolved Cases
Bidding	1
Business Intelligence	1
Cost	2
Documents	4
Processes	2
Projects	2
Reports	2

Bidding

Case Number: 00203290

CANNOT VIEW BID UPLOAD FOLDER

If a bid was submitted and the specified bidding folder didn't exist, the system was creating the incoming folder as a root folder and causing the folder to be unable to be displayed in the folder tree. Now the folders are created in the correct way and a data fix was applied to correct the already missing folders.

Business Intelligence

Case Number: 00204439

ERROR GENERATED WHEN ATTEMPTING TO SAVE REPORT

When a user attempted to save a new BI report from a BI dashboard visualization, the report would error instead of saving. Now, the BI report will properly save.

Cost

Case Number: 00214937

INVALID COST CONTROL ERROR FOR MASTER INVOICE IN RECEIVED STATUS

First round of cost control validation works fine when the status is turned to receive in an instance. At this point the invoice item amount is added to the budget Cost summary 'Actuals received' column. Now, in the next instance step when an action is taken, the cost control checks are fired again. Here the Updated cost summary 'Actuals Approved' column value is considered in one of the formula which is throwing a validation error.

Case Number: 00214123

ERROR WHEN OPENING COMMIT

When a commitment line item custom field was named the same as a column in the commitment line item or commitment change line item grids there could be an error when attempting to view the page. Now, commitment line item custom fields can be named the same without producing this error.

Documents

Case Number: 00212478

FOLDERS NOT EXPANDING WHEN DEFAULT IS SELECTED

Expand all folder settings was not working in documents module. Now folders appear expanded or collapsed according to user's preferences.

Case Number: 00212945

MISSING FOLDERS

There was a scenario when moving a folder where the folder itself could be selected as the destination. Now, you are no longer able to move a folder onto itself.

Case Number: 00206054

ANNOTATION ICON MASKED DATE STAMP

Previously when a stamp with the following settings is created on a pdf file, the annotation masked the date. Now the code is fixed so that the annotation icon does not mask the date.

Case Number: 00203082

UNABLE TO DOWNLOAD ALL FILES WHEN A SLASH "/" IS IN THE NAME

The code wasn't checking for possible characters that the file system doesn't allow, like the slash. This has been adjusted so the characters are addressed.

Processes

Case Number: 00215454

PROCESS INSTANCE COUNTER STARTING AT 0

Previously, instances submitted to a project for the first time were starting with an instance counter of 0 instead of 1. Now, instances will start at 1 as they should.

Case Number: 00211922

CSM: MODULE INTEGRATION DESCRIPTION FIELD NOT UPDATING

The dynamic line item description field was not updated when changing the line item value. Now the description field is updated when we select a different line item from the combo box and the value is also saved to database.

Projects

Case Number: 00214081

BULK EDIT ERROR ON CUSTOM FIELDS

Before, when using bulk edit of project, the page would show an error on save if any custom field had an apostrophe in the description. Now, there is no error and the save is successful.

Case Number: 00211562

PROJECT CUSTOM FIELD MAY BE SELECTED AS A PROJECT NUMBER CUSTOM FIELD

The Project Number Custom Field select was showing all the Project Custom fields with type of string. Now the custom fields are properly filtered.

Reports

Case Number: 00206297

REPORT FIELDS MISSING CUSTOM FIELDS

The Custom Columns formula was not appearing in the column. The solution was to add a condition that execute text information into the column.

Case Number: 00186823

TAXES ARE NOT DISPLAYED ON CR FOR MULTIPLE PROJECTS

The Construction Reports on IO were not showing the taxes. There were new requirements on how these taxes should be calculated and changes to the report templates. This has been fixed.
