About the September 2018 Maintenance Release

The e-Builder monthly maintenance releases contain a list of resolved cases for the month.

Your Opinion Matters

We rely on your feedback to better serve you. If you have ideas about improving our product or service, please don't hesitate to let us know. Below are four ways to reach us.

- **Like/Dislike**  – Located in the banner of e-Builder Enterprise™ are like and dislike buttons. Click these to express your opinion of a particular page. This feedback is used to help prioritize upcoming product enhancements.
- **e-Builder Product Ideas** – The Product Ideas portal gives you a platform to share your thoughts on how to make e-Builder better. You can read and vote on the ideas of fellow e-Builder users or post your own. The number of votes are taken into account when forming e-Builder's roadmap. To access the Product Ideas portal, click the arrow next to your username within the banner of e-Builder Enterprise, and then click Product Ideas.

- **Support** – Our Support staff is always available to meet your needs. To speak to a live customer service representative, call us within the U.S. at 888-288-5717 and outside of the U.S. at 800-580-9322, or email us at support@e-builder.net.
- **Annual Technology and User Conference** – The annual e-Builder Technology and User Conference offers a unique and up-close opportunity to gain insight into e-Builder product direction, learn best practices from industry professionals and peers, and to exchange information and ideas with members of the e-Builder community. Learn more and register for Elevate 2018 - <https://elevate.e-builder.net/>

Release Note Change Log

The release note change log includes all changes made to this version of the Release Notes document.

Date	Version Number	Description
September 20, 2018	1.0	Initial Release

Resolved Cases

The following is a list of resolved cases for the past month. If you have any questions regarding this maintenance release, please contact e-Builder Support at 888-288-5717 or via email at support@e-builder.net.

Bidding

Case #	Resolution Notes
266093	Resolved an issue where the original user who asked a question that was answered public by the bidder was not being displayed as anonymous in both the Q&A panel and the Q&A export file.
284495	Resolved an issue where a blank construction code setup on the bid was causing an error message when attempting to send an invite to a bidder.
285949	Resolved an issue with bid tabulation that caused an error message to be displayed due to bid data duplication.
275000	Resolved an issue where a bidder requesting access to a bid package from an email invitation was receiving an error message when accessing the bid portal.

Cost

Case #	Resolution Notes
283980	Resolved an issue that kept the void button from being displayed when commitments were linked to draft dynamic line items.
286863	Resolved an issue where funding rule values that were set to 0% were being displayed as question marks (?).
286619	Resolved an issue where the Funding Rules Source percentage field generated an error displaying NaN instead of 0.00.

267724 Resolved an issue where grouping Commitment details by custom fields produced an incorrect SUM if the grouping field contained the same data values but the values had mixed upper- and lower-case characters. This was also resolved in Master Commitments, Master Commitment Changes, Master Invoices, Commitment Invoices and Commitment Changes.

Documents

Case #	Resolution Notes
268693	Resolved an issue that could cause a Bluebeam session error when trying to start a session if the Session Name contained special characters.

Processes

Case #	Resolution Notes
287308, 287318, 288526	Resolved issues that were causing certain workflow instances in a mail merge workflow step to become stuck and not move forward.
284922, 284437, 288088, 287441, 284313, 283428, 287362	Resolved several issues that caused process instances to become stuck in certain situations without the ability to move the process forward or override the process.
281342	Resolved an issue where process instance data fields were not being displayed to the user in the correct time zone when the information was imported from a file.

Reports

Case #	Resolution Notes
286831	Resolved an issue where a report was not showing formula columns in the report criteria if the report type was Contacts.
284492	Resolved an issue in BI that prevented some users from being able to open the filter panel for BI dashboards when clicked.

- 285202 Resolved an issue that produced an error message stating, "There is a problem with this report." when a formula column contained a formula with a denominator that started with 2 parentheses ((.
- 284857 Resolved an issue where a report did not return the proper results for a specified date range due to the date not being converted from the user's local time zone.
- 274579 Resolved an issue where user login reports were not providing correct login count results when reporting on a date range that included a starting date before 12/27/2017.
- 286213 Resolved an issue with Schedule reports that grouped information by day when the option selected was to group by month.

Setup and Administration

Case #	Resolution Notes
285844	Resolved an issue where a user would receive an error message when quickly checking and unchecking permission options while modifying Global Custom Field permissions.
285009	Resolved an issue that generated errors due to the deletion of a project that was associated to a public process. The system will also now warn and not allow deletion of a project if it is still linked to a public process.
277002	Resolved an issue affecting the planning module where the end month of the Fiscal Year was incorrectly processed as the start month in the account settings.
285972	Resolved an issue where editing a segment of the account codes was not keeping page location.
