

Have you read the "Print Smarter Poster

all	8	29%
some	14	50%
none	6	21%

Did you find it useful?

yes	19	68%
no	8	29%
blank	1	4%

Which of the following did you learn from the poster

How to print double sided	11	39%
how to cancel a print job	8	29%
how to check a print queue	8	29%
how to not print your header page	5	18%
how to make double-sided and no header page printing your default	10	36%
none	8	29%
blank	1	4%
other	list the printer names so I can print to a non-default printer I already knew how to duplex/no header	

Did this poster help you to save paper while printing?

yes	15	54%
no	12	43%
blank	1	4%

Have you changed your default to double-sided and no header page

yes	14	50%
no	13	46%
blank	1	4%

If not, why not

header pages are needed. Double sided I can do sometimes  
I print double sided, but I collect the header pages as scrap paper  
double sided only  
some things I want single sided I just try to print to -p\_\_\_\_2  
I want doublesided printing  
I ran the command, but nothing happened (presumably I  
screwed it up somehow)  
I use header -zbanner=staff and usually use double sided

don't print that often  
manually  
haven't checked how  
I change it manually each time  
I want to be able to choose for each job  
didn't know  
don't know about it  
I don't print things in Athena clusters
