These Queues have low enough response rates per week that a weekly graph would be misleading. All scores presented are the cumulative average across the Quarter. Monthly detail appears in the table on the next page.

	RCC::NorthWest	1066280	5.00	It was great, thanks!
				Got it fixed early and fast. When dealing with retail operations
				who are working off-line, getting thing fixed in a timely manner
				keeps them happy and make my job easier. Thanks for getting
	TNIS::Trouble Calls	1058270	4.17	Dunks back on-line.
				I believe the problem was an error by the person sending me e
				mails. The tech support person therefore couldn't know what
				the exact problem was, but he made suggestions that allowed
	Help Desk::Call Center	1067400	5.00	me to get the sender to correct her error.
		1001 100	0.00	Superb service, when the first course of action did not work
				(and the consultant was not sure why), he suggested a few
		1067160	5.00	alternatives and got the job done. Thanks!
				You guys are terrific! Thank you very much for your patience.
				am not exactly a "power user"- for example, when I try a new
				application for the first time and it is not intuitive where to go
				next, I find the help line personnel very professional and more
				importantly, not intimidating in the least. Keep up the good
		1067027	5.00	work.
				Service overall was terrific, both on the phone and in person.
				Only thing was that they told me I had to make the Windows 7
				disk bootable, which actually made it not work, so I had to go
				to Sloan IS&T to figure that out. Overall, great experience, and
		1066489	4.17	never waited more than 30 seconds.
				Rather than emailing me to follow up with another group at MI
		1066420	3.33	why not forward the message to them and copy me?
				The photos I was trying to send never did reach there
				destination, even when I tried to send one at a time. I was able
				to send a group of 5 photos on my wife's Yahoo mail and I
		1064901	4.17	received a cc. of the sent email w/in 5 min.
				Actually, I was given no anwer(s) at all to my questions. The
		1064562	1.67	person was very nice. However, there is still no answer.
		1063747		Robin Lundgren was very helpful.
				the man was really very helpful and was very patient with me I
		1063119	5.00	cannot thank him enough
		1061988	5.00	Superb, as usual.
				Overall, I was very satisfied that I was registered correctly, but
				never received any email in response to my original questions
				so I just assumed someone had taken care of it when it started
				working soon after. Therefore, where I said "does not apply" if
		4004000	4 4-	because I never actually had any communication other than m
		1061969	4.17	original email. I assume you're not open during the week-end because I didn'
		1061246	2 22	hear from someone until Monday morning.
		1001240	3.33	Issue was resolved locally by disconnecting and reconnecting
		1061237		the phone several times
				My only complaint is that MIT email went down on Saturday
				night, and there was no help desk to call, and I didn't get a
				response to a support request until Monday. Also, even tho
				IS&T apparently knew about the problem, I couldn't find a
				webpage listing known outages that would have saved me the
		1061221	4.17	trouble of requesting support.

	I			
				I emailed computing help about an inbound email outage on
				friday evening. I gave an alternate email to be contacted at. I got
				no emails from IS&T saying they were aware of / working on the
				problem, and only finally got an email on sunday evening
				, , , , , , , , , , , , , , , , , , , ,
				[48hours later] and that was after I'd already noticed the
				problem had been fixed. The explanation was very light on
				information. It just said there was an email outage, but not why
				or what steps were taken to make sure it would not repeat

		1059929	5.00	Everything went great! Thanks a lot, IS&T!
				Faster replies would be more helpful. The problem was
				eventually resolved because of my own troubleshooting and
		1052994	3.33	not IST.
				It took 6 weeks to get my issue resolved, with no one following
				up with reasons why there was a delay. However, once the
		4054004	0.50	problem was finally acknowledged, it was resolved in a
		1051991	2.50	satisfactory manner. This was a tough problem to handle over the phone, and I'm
				- · · · · · · · · · · · · · · · · · · ·
				not sure what the problem really was. It wasn't something that
		4054700	0.50	the person I spoke with was particularly familiar with.
		1051733	2.50	jgk@mit.edu
				Although the staff and resolution was all handled wonderfully, I
				disagree with diagnosis. I spoke with a person who told me that
				my power cord did not work, however, upon my return home I
				managed to start my computer up using the AC adapter that
				they said I would need to replace. All I did was remove my
	Hala Baal Camaia Cantan	4000544		battery, plug in my computer, and the thing moved wonderfully.
	Help Desk::Service Center	1062544		Thank you for the consultation anyways.

		The answer I get did not address my question although it did
		The answer I got did not address my question, although it did resolve it. Here's what happened: I downloaded Windows 7,
		and shortly after I got an email with a serial number for
		windows XP. That was confusing, because I assumed that I
		would need to have a key to install the OS, and that the system
		sent me the wrong one. I attributed this to downloading the OS
		on the day it was released, and that the system was not yet up
		to-date. The answer I got in response was that the serial
		number was already built into the OS, which it was when I tried
		to install. However, I had still received an email with a serial
		number for Windows XP. It seems to me the email I should hav gotten would be one that directed me to the webpage clarifying
		how to activate the OS, and not an email with a serial number
		for the wrong installation. At any rate, the OS is installed and
		working, I just hope that the email going out for each install wi
		be changed to reflect the proper procedure for activation! .

		The way my request has been treated was scandalous. The
		person in charge was just reading his emails and my request
		definitely bothered him. He did not pay any attention to my
		issue. He say upfront that it was a hardware problem, claim which was good for him as MIT does not do hardware. In fact, i
		appeared to have been a software problem (I had to reboot the
		whole system). I do not request that all the MIT technicians
		should be able to make a perfect scan of all problems
		encounter by a computer but in that precise case, there was
		definitely a willingness not to get into the issue. My case was
	1048947	0.83 cleared in less than 5 minutes.

10/19/2009 Help Desk::Service Center	1047855	5.00 Thanks for getting everything done so guickly!
10/13/2003 Help DeskGel vice Genter	1047033	Didn't resolve my issue of hangs while going to standby. I
		actually managed to resolve it myself with Lenovo support a
	1047472	4.17 day after I got it back. I had a frayed power cord, and the problem was obviously
		with the cord, but unfortunately I had to bring in my computer
		anyway. I found this annoying. Otherwise, my experience was
	1045191	4.17 a positive one.
		The person I initially talked to was friendly and helpful but
		didn't seem very knowledgeable and gave me some incorrect information. I was thoroughly pleased with my interactions with
	1043954	4.17 everyone else.
		I would hope that in the future I would be given a reasonable
	1040064	estimate on the timeframeI was told it would be ~4 hours, and
	1040064	2.50 I couldn't pick it up until more than 24 hours later.
		Staff at MIT IS&T were courteous, but I was extremely disappointed with Dell's handling of the case, and with their
		misinformation regarding my warranty. My Dell laptop was
		under Complete Care Coverage and International Warranty.
		Then Dells told me: sorry, your international warranty is not
		really international, but you can transfer it in 24 hours. Except
		that the 24 hours warranty transfer time promised by DELL
		Hong Kong turned into two weeks! And then, Dell US still wouldn't repair my laptop I was now told that Complete Care
		Coverage was not transferable in the first place. 3 weeks of
		being told stories by Dell led do: ship the machine back to
		where you bought it OR have it fixed in the US Out of Warranty
		. It took me about 5 weeks in all to get my laptop back AND I
		had to pay for the repairs!!! The staff at MIT IS&T were professional and courteous, but they handled the case very
		slowly (maybe the slowness was also due to Dell, but I feel they
		probably could have s! peeded things up, 5 weeks is extremely
		long!) and didn't provide me with the right information straight
	1014331	0.83 away.
		You didn't actually suggest the correct fix (remove expired certificates and restart browser) but might well have one so if I
Help Desk::Business Help	1053008	4.17 hadn't succeeded with this first.

	1049819	5.00 June Milligan at CopyTech!! I filed the ticket on September 7th, 2008. Yes, 2008. That's
		more than 13 months ago. That was the beginning of the fall
		semester last year. It is unacceptable that at the most
		technological institute in the world, it takes 13 months to fix
	702468	0.83 something. My ticket was about a fairly vital part of the MIT web

				I initially spoke on the telephone with April. She was very
				helpful in first suggesting that I might myself resolve the
				problem I was having with Outlook by closing and reopening
				my email account and once this proved not to be a solution by
				exploring the problem further. She was prompt in her
				exploration as well. Deb Bowser took over in implementing the
				solution and suggesting how I could complete it by
				implementing one or another of her suggestions to resolve
				what turned out to be the problem, that my email account had
				been moved to Exchange Server. I was able to implement her
				suggestions on my own and the entire problem I first presented

	1033164	I was in a jam because I had never received warning that I was nearing my mailbox capacity. I was desperate to start receiving emails asap. Despite this, the first person I talked to didn't mention to me that I could purge my deleted messages in order 0.83 to start receiving my held emails sooner.
	1031105	The person I initially spoke to stated that he didn't know much about the software I was asking about, and I would need to speak with someone else within IS&T about my question. But then he still wanted to have a conversation about my problem, even though it was clear that he didn't really understand the problem I was having. It went beyond data-gathering - it was as if he was trying to solve the problem regardless of the fact that he didn't know anything about the program. At the end of our conversation, he said someone else would follow up with me. I then didn't hear anything from anyone for one week. And when I did hear back, the person who emailed me didn't really resolve my question (probably because the question wasn't accurately conveyed by the person who initially took my call).

Eventually I found that I could not select next day shipping, which I needed, or it would generate the error I encountered. I had to speak to three separate people to even approach someone who could help and everyone simply blamed some other department (procurement, IS&T, the "system"). I continue to be frustrated and irritated by the eCAT^3 system and find it a WASTE of time instead of SAVING time. It is SO much easier to call a vendor up and order what I want, with the shipping I want, and not have to wait for all this "system" nonsense to process my order, a system that everyone seems to be helpless to fix when it does go wrong (which it does reasonably often).
Nope, not fixed yet. Let me try again The assignment LISTING on the web page is still visible, even if the student can't access. It is the LISTING that is ALSO supposed be INVISIBLE.
