all-Os-surveys Msb Freedback / Client Satisfaction Survey Results

These Queues have low enough response rates per week that a weekly graph would be misleading. All scores presented are a Quarterly average, to smooth out sparse data. Monthly detail appears in the table on the next page. Note: the big box score of "**Overall Satisfaction**" refers to question 7 on the survey, not an aggregate of the other scores listed below.

12/2	28/2009 Network::Requests	1108320	5.00	The service was very fast and efficient. 3-4 months back, I noticed that several tickets take a really long time to be answered. I think its getting better these days. Sometimes they were not even cared for or the ticket getting closed by someone without our concern. It would be nice to have the person, who created the ticket, to close the ticket.
		1061865	2.50	I was surprised that my request took two months to resolve. I have not yet followed the instructions in the link, but I fear that it will be inadequate in preparing me for my task ahead. That said, I do appreciate the help; I know you are busy and work hard.
	RCC::EastCampus	906602	0.83	This ticket took over a month to resolve. It was the one of the WORST tickets I had to deal with. I'm not exactly sure who was looking into what but every time I called, I never got a straight answer. I had to keep waiting for the person to find out what was going on. The person who stayed on top of this case did fine but the actual person who was working on this problem took a LONG time. I opened this case on May 19 with case 904171 and it wasn't solved until July 9th. I never even got an answer as to why this file kept getting blocked. I can't even answer number 2 because I never spoke to the person handling the case so I have no idea if they knew what they were doing.
	RCC::WestCampus	1110590	0.00	this was an auto-generated message from my out of office assistant.

		1111228		The IS&T member did a great job handling my question. Your staff responded much more quickly than I was expecting. Thanks for the great service! IS&T was not able to repair a Toshiba so this survey would not apply. However, I am grateful someone called me to let me
		1110742	2.50	know. diagnosed the problema failed power sourceand fixed it and the help line person I got after picking up the machine. The hardware problem was solved. The machine now works. But there was, it turned out, another problem in the software: when I turned the machine on, it worked painfully slowly and Internet Explorer was right away non-responsive. The help line person looked at the ticket, saw that I reported having a problem with non-responsive programs, and said "bring the machine back in." Do you know what it takes to get a machine in and out? It was just there, and the repairperson said he'd make sure there were no nasty surprises. Did he only do a hardware check? What couldn't someone have figured out there was more than one problem and dealt with them together? He, however, was OK, but the help line guy was patronizing and defensive more than helpful. A machine can have problems in both areas. So what happene! d? I got the dept. tech guy to fix it: the McAfee software had to be uninstalled, then reinstalled so downloads registered (apparently the anti-virus software was corrupted), then a scan discovered a virus. If someone had walked me

12/7/2009	Help Desk::Call Center	1092765	4.17	This was typical of my interactions with the staff of IST via email - they did what I needed them to do but I never got a single word from an actual person - I got one email with the license info I had requested, forwarded without comment, and an auto-generated email announcing that the help ticket was closed. In this case the case-closed email actually arrived before the information I requested. My questions about the process were ignored, presumably under the assumption that the info I was sent would fix everything. This time that was the case, since this was a relatively routine thing, but are you really too busy to follow up help requests to make sure I actually got helped, instead of informing me that I have been without actually checking?

		1087139	4.17	I wish the RCC's could perform a reset on the router device that the ethernet wires are connected to. This way it could have been resolved in the evening when the RCC visited our apartment, rather than having to wait for the next work day. This ticket concerned my suggestion to have the iPass service include inflight internet access now offered by Gogoinflight on a number of US airlines (including nearly all domestic flights or Delta) The IS&T staff was very responsive, knowledgeable, and informative, and will look into the possibility. So in that sense this ticket is complete. However, I don't know yet whether iPass now includes Gogoinflight. 		1082885	0.83	Regarding ticket 1082885, the person I spoke with did not
				provide an adequate solution for the problem. Re-adding my
				MAC address to the VLAN did not work. Our VLAN

I was not happy to go in circles. When someone (Jennifer?) responded to the email saying I still needed help, she said the Benefits people did not stick to their posted deadline anyway. If the FSA page says to call IS&T, shouldn't IS&T try to fix things? If they don't think it's their business, please do not put the number on the FSA page; send us right to Benefits, who will tell us to call IS&T. How would you feel with such a run-around? 11/9/2009	Network::Requests	1073419	5.00 The IS&I specialist who assisted me should be canonized a saint! He was extremely patient, respectful, and professional in coaching me through a host of diagnostic processes on a day that I could not even remember my password! 		1069435	The IS&T staff who handled my phone call and the ticket were great. They asked all the right questions to clarify my question, and were very quick to admit when they needed to transfer the question to other staff rather than giving me an incomplete or incorrect answer. The ticket was handled very quickly, and 5.00 allowed me to get the information I needed. Thanks!
		1033847	0.83 I waited for more than a month to resolve the problem, but didn't get a reply from the office. Not until I resolved the problem by selling the printer and buying new other model, I received the message. This is not the first problem. I requested the service 3 times for the different reasons and the fastest reply was 2-weeks after the request. (I didn't get even a reply for the other one.)
	TNIS::Trouble Calls	1062564	This problem has not been solved! I have repeatedly asked about the noise on telephone line now for TWO YEARS WITHOUT ANY CHANGE IN THE SITUATION AT ALL! If you call me now at x3-5266, you will hear a loud buzzing on the line. This is compromising my ability to do my job - to talk with research collaborators, to participate in telephone conferences. I am completely at my wit s end and will likely stop using my 0.83 phone. Can I charge my monthly cell phone bill to your office?
	Help Desk::Call Center	1073663	5.00 I was able to fix the problem myself before a staff person came by downloading a newer version of Firefox. The staff was coming to my office to fix the problem, but I called and cancelled.

		1004072	2.50 The Software Release team saw my e-mails and was very quick to respond. However the group that was actually responsible for running the server hosting the Red Hat ISO images (whose e-mail address is nist@mit.edu) took two months to handle a simple request, and the Software Release team told me that internally they weren't even able to get in contact with that group about it. I expect a much better response from that group in the future.

11/9/2009	Help Desk::Service Center	1073297		The staffer clearly explained that IS&T wouldn't even try to resolve my problem because they considered it to be a departmental issue. As I explained in my call, I has a time- critical problem which required MIT-level assistance because departmental staff were absent and there was very significant overlap with institute-wide security systems and lists. I eventually resolved the problem by waiting for departmental staff to return. This cost my research project about 20+ hours of time because I had 5 people waiting around stuck. So, I am dis-satisfied not with the staffer, who clearly explained policy, but by the lack of institute coordination and cooperation. Departments are small, by definition, and a more sensible system would have fall-back agreements so that when departmental staff are busy or sick, IS&T could step in and help keep things running. The problem turned out to be related to
				institute-level WINCE permissions, and had nothing to do with

10/19/2009 Help Desk::Call Center	1051501		The answer I got did not address my question, although it did resolve it. Here's what happened: I downloaded Windows 7, and shortly after I got an email with a serial number for windows XP. That was confusing, because I assumed that I would need to have a key to install the OS, and that the system sent me the wrong one. I attributed this to downloading the OS on the day it was released, and that the system was not yet up- to-date. The answer I got in response was that the serial number was already built into the OS, which it was when I tried to install. However, I had still received an email with a serial number for Windows XP. It seems to me the email I should have gotten would be one that directed me to the webpage clarifying how to activate the OS, and not an email with a serial number for the wrong installation. At any rate, the OS is installed and working, I just hope that the email going out for each install will be changed to reflect the proper procedure for activation! . Thanks for providing a great service! pgholder@mit.edu

	1048947		The way my request has been treated was scandalous. The person in charge was just reading his emails and my request definitely bothered him. He did not pay any attention to my issue. He say upfront that it was a hardware problem, claim which was good for him as MIT does not do hardware. In fact, it appeared to have been a software problem (I had to reboot the whole system). I do not request that all the MIT technicians should be able to make a perfect scan of all problems encounter by a computer but in that precise case, there was definitely a willingness not to get into the issue. My case was cleared in less than 5 minutes.

			5.00	because many people are using voip these days. I happen to have the technical backgrounnd to ask the right questions but the average user would never have thought to check the MAC address and have IST register it.

				My laptop booted up once but then had the same problem the next time I tried booting it up. A Dell technician came to work on it but told me there was a problem with the motherboard, which was what I was told that IS&T replaced. So after IS&T replaced the motherboard and a Dell technician replaced the screen, the laptop still does not work.
		1042891	5.00	actually, the problem fixed itself while I was on the phone but I've always had good luck with the folks on the other end of x3-1101.
		1039726	5.00	Very fast turnaround time.
		1035732		I recieved email that the port in question was active, but when I went to use it, it was not. I need to re-open this ticket as it was not actually resolved.
		1033547	5.00	More emails regarding status of ticket? I was told I would receive one regarding my warranty status, but I never did then surprise! my laptop was fixed! It was a pleasant surprise, but still
		1031403		great work
		1022744	2.50	The resolution was that the problem could not be solved by email, i would have to come in person to get a solution. I have not had time to do this yet, so the problem is unsolved. I felt that more could have been done to understand the details of my problem and try to come to a resolution by email. I remain slightly dissatisfied, but realize that solutions over email are not always possible. I am still planning to come in for a visit when I can find the time.

			2.50	This issue took a particularly long time to resolve. I filed an initial report on September 23, 2009 and it was resolved October 14, 2009. At one point, I wrote an email to just remind the Stellar support group that the issue was still a problem and still unresolved. This kind of turn-around time is particularly poor and outweighs the professionalism and courtesy demonstrated by the staff. It reflects poorly on the organization.
		1018629		Basically, I had put a complaint about the wired connection in my room. Nobody came for a long time and the connection started working again (don't know how). Then somebody contacted me for I time when they should come and check, but it was not required. Overall, since my problem was solved, I am happy.
	Help Desk::Service Center	1038705	3.33	I was reporting what looked like a service outage of a major service (Mailman lists), and didn't get a reply for several days. That said, based on the reply, it looked like it was an intermittent problem that they had spent the intervening time working on and trying to fix.
	Help Desk::Business Help	1044707	5.00	
		1041767	5.00	Elena Z called me quickly about my question and explained the options - the response from the DWH team was excellent.
	Help Desk::Athena	1039654	3.33	I was told to contact somebody else. Perhaps, if another resource is more appropriate, the helper can CC that person instead of asking me to email him or her separately; it would save time to contact the right person via CC, even if the first contact cannot help me (which is OK).

		1033369	5.00	I miss the ammenities of Eudora. Is it possible to have both mail servers available? Can I use apple-mail without going through Comcast? Your service is always very good. I should have asked these questions of them when on the hone.
	Telecom::3help	1030094	5.00	IS&T has always been great. I think it is one of the best services provided by MIT. Many thanks, Esra
		1009292		For the first time since I first arrived at MIT in 1996, I had a mixed experience with the IS&T helpdesk. (My experience has otherwise been uniformly excellent.) On this particular occasion, it took three weeks to get the issue sorted, and it came to the point when I was feeling a little neglected. Some of the messages I received seemed to assume that the problem was something different from what it actually was, and gave me advice that didn't seem to address the issue. After a while I complained, and the issue was sorted to my full satisfaction almost immediately. I continue to believe that IS&T supplies some of the best university tech support in the country, and an
