All IS&T Queues Surveyed

Interpreting the Report

The scores and charts on the first two pages show cumulative averages over 12 weeks of client responses to our per-ticket survey questions. Each ticket belongs to a specific queue, and scores are reported at the queue level on page 3. The IS&T level rolls up all the surveys; Service Desk rolls up many CSS queues; Call Center is a subset of that and excludes the Repair Center, which is shown on its own. For all the charts, the 12-week window rolls forward each week, and the scores are always across that window.

The multiline charts try to convey the rhythm of service performance over time and the relative levels of satisfaction by service dimension. A

high-performing service would have all its lines flowing consistently at or above 4.5 and not too far apart from each other. Some queues have survey responses too intermittent to graph with weekly readings; those are show using only summary numbers for each dimension. The numbers are 12-week averages.

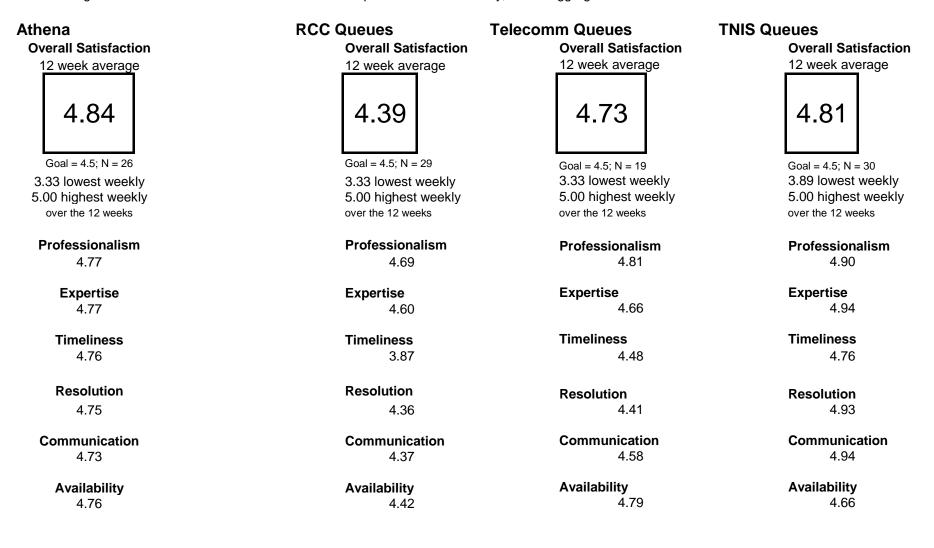

Detailed results by month by queue are shown on the third page showing up to 3 months and resetting at the beginning of the quarter. Color-

These Queues have low enough response rates per week that a weekly graph would be misleading. All scores presented are a Quarterly average, to smooth out sparse data. Monthly detail appears in the table on the next page. Note: the big box score of "**Overall Satisfaction**" refers to question 7 on the survey, not an aggregate of the other scores listed below.

8/16/2010	Edtech::Stellar	1307578	5.00	The staff who replied to my question were great and acted quickly. The only way the process could be improved is if there was a way for me (or other someone else in the Libraries) to directly manage Stellar privileges for library staff.
	Help Desk::Athena	1301505	5.00	Very good service. Only thing I would suggest is be a little more specific in saying which buttons to click.
	Theip Desk.:Athena	1294209	5.00	
			0100	Do not have one complaint. Everything was handled in a more
	Help Desk::Business Help	1296620	5.00	than timely manner.
				I appreciate that, although the issue had not been resolved yet, IST told me that at once, then carried through by letting me know when the matter had been resolved, even though it took some time. Also, thanks for letting me know exactly what the problem was and suggesting the go-around during my initial
		1281556	5.00	call.
	Help Desk::Call Center	1318241	3.33	
		1317017	5.00	Good job. After explaining my issue I got feedback and the problem was fixed although I was not told that I was good to go. I just happened to try again and it worked. So I assume they fixed it
		1316920	4 17	for me. Thanks.
		1316906		Barry was particularly helpful and went beyond the call of duty to help me troubleshoot other issues.
		1315398	E 00	The problem was not fixed but a work around was suggested
		1314946	5.00	i would have given 'very satisfied' to everything except it seems like it always takes a long time to speak to someone, am on hold forever; and the 'on hold music' breaks up making it more unpleasant to be on hold. aside from that, great service,
		1314552	4.17	thanks again for helping me No problem whatsoever. My issue was resolved. Did not have
		1314530	5.00	to wait too long on the phone.
	Help Desk::Service Center	1314940		thanks
	Mobile Devices	1317717	5.00	I found all those involved inn fixing my problem very helpful and efficient. Thank you!
				Service was very quick and effective, and all options were
		1316784	5.00	explained. Thanks for the help.
				Looking forward to "official" support of Android platform. :) I appreciate the effort that is being made to support Android
		1314311	5.00	users until then!
	Network::Requests	1316699		Thanks as always!
	RCC::NorthWest	1316087		despite the fact that i cannot still connect to the mit secure i am satisfied with the handling of the problem.
	Software::Matlab::Questions	1315930		After I did the complicated installation a screen message appeared saying I needed a compiler for xome parts to run. I looked for compilers and foundc that one wass suposed to be loaded. When I tried to load another compiler, thre screen said tht I needed to install Matlab 2010 which I did not have. However, I had just spent a couple of hours loading that. I hope things work when I need them for running the Argonne Labs program called PSAT which requires Matlab, Simulink, StateFlow, and the report genetrator toolbox. I tried to load those things today.
				I was amazed how responsive telecom was to my request.
	TNIS::Inbox	1318873	5.00	Keep up the good work! Even had my message forwarded tot he right spot when I

8/9/2010	Help Desk::Business Help	1277996		Sorry, but in the delay between sending the query and receiving a call back, the problem was resolved (I suspect a temporary glitch either in the SAP system or my computer). For other problems in the past, though, I have always been impressed with the staff and their effort to make sure my problem was resolved satisfactorily. Thanks for asking.
	· · ·			I believe the person who helped me was Jacob. I could be wrong I'm sure the ticket has the data. Anyway,. he was great. Explained things well, walked me through my options, etc. And he didn't act snooty like some IT people do (I've not experienced that at MIT, just so you know). High marks. If he
	Help Desk::Call Center	1313405	5.00	taught a mini-course on computer stuff, I would take it.
		1313353		Very helpful!
		1313322	5.00	
		1310635		Problem resolution was very good .
				There was a 3 business day delay between my filing the ticket and receiving a response. It wasn't a big deal as I didn't
				urgently need to solve the problem but, given how simple it was to resolve, it probably could have been speedier. I'm not
		1310263	1 17	unhappy about it, just giving my \$0.02
		1309887		Thanks so much to Bill! I adore the MIT HelpDesk
		1303007	5.00	Phone conversation was efficient and helpful. By the time I
				hung up, I'd resolved the problem. She didn't seem rushed and
		1309787	E 00	even waited to make sure everything worked.
		1309/8/	5.00	Person I spoke due was able to resolve the auto-reply
		4000540		message problem, but did know how to fix my iphone email
		1309543	4.17	access problem. The staff member was extremely helpful and showed me how
				to solve my problem right away. The only slight annoyance
				was how long I had to wait for someone to come to the phone.
				However, I can say your choice of music for people on hold is
		1308992		better than most.
		1308686	5.00	Thanks going out of your way to assist me.
				In general instruct your staff to speak slowly, and clearly. It is especially difficult when dealing with staff members who are not native English speakers. Many tend too garble their words and speak at a pace appropriate to their own native language
		1308515	3.33	which is very often fast relative to that common in US.
		1308313	5.00	Only thing I can think of is to be even quicker, although you already were very quick.
		1308106	5.00	Webmail was intermittently hosed over the weekend. I just needed some confirmation that it was, in fact, webmail that was hosed, and not my setup. As soon as somebody started looking at the ticket queue on Monday, they got right back to me with enough info. What more could anybody do? Nice job! and thanks again.
		1304344	5.00	I ended up solving the problem on my ownI had to restore the factory settings on my iPhone to install the MIT certificates. However, the technician I talked with was excellent and offered to work on my phone if I brought it in.
		1304263		My question was more organizational than technical in nature (I was trying to figure out who in IS&T I should contact about something, as opposed to getting an immediate problem solved), so maybe this wasn't the right forum for it. Even so, the first response I got back was frustrating because it didn't address my actual question, as if the representative hadn't actually read my email, or did read it but didn't know the answer, so decided to respond to a different question instead. I would have preferred an "I don't know", which would at least have saved me the time re-explaining myself. The second response was better because it gave me another email address to which I could direct my question, but it still felt like the staff wasn't equipped to deal with this kind of inquiry.

8/9/2010	Help Desk::Service Center	1312080	5.00	My only negative comment is that I'd asked to be notified by phone of any updates when I dropped off my laptop simply because I wouldn't be checking my email as religiously without a laptop, but instead only got the emailed updates to the ticket. Ticket responses were quite prompt and it worked out without a problem in the end, but I imagine this could be more problematic for someone without a smart phone. Matt Sullivan was fantastic. He was extremely responsive and
	Mobile Devices	1305445	5.00	knowledgeable.
	Software::Matlab::Questions	1308262	1.67	My original question was forwarded to matlab from IS&T and there was no response. After a couple of days I emailed matlab directly and in the response the staff said they thought they had answered this ticket already. Not sure what happened. I needed a timely response and I still don't have a complete answer to my question(s). Thanks for allowing the feedback! It would have been nice to be informed when I was back
	Telecom::3help	1312712	3.33	online. I went in, checked it myself and used it more than an hour ago. You are just repsonding now.
				You guys do a fine job. You answer the phone when you are able to. When you are not able to; I know it's because you are too busy. I've been at MIT for 31 years; the level of professionalism and the ability of IST to respond to problems has greatly improved over time. You get better & better; even when you are short-staffed. Keep up the good work. I'm a big fan. I challenge any other university to support its clients as
8/3/2010	Help Desk::Business Help	1293546	5.00	well as IST supports MIT. Can't be done. We are the best.
				I am very discouraged to find the documentation for this
				process is split between web pages and Hermes pages. There
		1276677	3 33	should be a reference on the web page telling me that it can be found in Hermes.
		1210011	5.55	Justin Fleming is a great professional! Krieger lab is extremely
	Help Desk::Call Center	1307223	5.00	satisfied with his service.
		1306433	4.17	
		1305290	5.00	Jozsef Doczi was very good assisting with the printer problem, he even called me back when we agreed to continue the conversation - I had a meeting while we were troubleshooting the problem and I had to go. Jozsef sent me the link to the update the printer information which it was outdated. Olimpia
				very good job. Staff went the extra mile to get important
		1304958		information.
		1304930	5.00	nothing! perfect!! I had a wonderful experience, and the operator was extremely
		1304009	5.00	helpful and clear.
		1303924	5.00	As usual, I'm impressed with the good work you all do, and the pleasant way in which you do it.
		1303879		Thanks!
				Great experience and very helpful. I often find that when I call IS&T I am helped in a timely and professional manner. This is
		1303042		one of the best resources on campus. THANK YOU!
		1303008		Great job! The person who helped me was terrific. I was able, with his help, to accomplish what I needed to and in a short amount of
		1302274 1292596		time. Many thanks!! Fabulous!
	Help Desk::Service Center	1304857		Just very, very well done.
				I was only slightly satisfied with the resolution because the initial issue, which was my computer crashing followed by the fan running, occurred the day my computer was returned.
		1299782	4.17	However, I have not had an issue since.

	8/3/2010 Help Desk::Stellar	1304236	My overall dealings with Stellar this week have been horrible. There has been complete confusion about a simple request to provide websites for multiple sections of a class (21W.730) taught by different instructors. In addition, when I applied for a website for my other course, SP.401, Intro to Women's and Gender Studies, I was told that the course wasn't listed in the registrar's schedule. When I found the listing in about 5 seconds and sent it to Stellar, I was told that the problem was that the course was listed as SP-401, when it should have been SP.401. That may or may not be true, but wouldn't it make sense to check under SP.401? The impression is that these transactions are being handled completely by machine and not 0.83 by an individual. Very, very poor service.
	Network::Requests 7/26/2010 DITR::PLUS	1299703 1296753	The ticket (requesting information) was logged on July 29th and I was contacted about the ticket about a week later. During that time, I was able to address my issue dealing directly with external (SAP) technical resources (I probably should have closed the ticket at that point). The support I receive from the Network team is usually very good an understanding as to the expected response time for an RT ticket would be helpful.5.00Jessica Smith was terrific.
	Help Desk::Business Help	1300998	Most excellent services! I had a thread of emails with different staff members, but everytime i checked my email to see if someone responded to my latest emails, there was always a response!! (and i checked my email about every 5 minutes) 5.00 Super fast (even though my problem was fairly simple)
	Help Desk::Call Center	1301040	this end of the system doesn't have the info to handle and4.17answer the questions arising from the on line RFP systemHe was absolutely outstanding. This is a rave review! He
		1200861	knew what he was talking about. 10 ways to get to Katmandu
		1300861 1299874	5.00and he knew them all.He was a gem.5.00The issue was not resolved.
		1299634	Do I have to fill out a comment questionnaire every time? You 5.00 all are great.
			I have had continuous success with the Help Desk and consider it an invaluable resource to one such as myself, who
-		1298914	5.00 is a severely I/T challenged employee. Both the young man at the help desk and Matt Sullivan, to
		1297999	5.00 whom he routed me were superb.
-		1297485	5.00 Outstanding support! Thank you.
			I dealt with Carl (or Karl) and I can't even begin to tell you how
		1297141 1295358	5.00 professional he was. He was excellent. He was tremendous. 5.00 Thank you!
		1233330	Windows Live Mail is not supported by MIT Computing. So
		1295280	3.33 don't bother. Mark came down to see me at my desk. He helped figure out
			the solution and even followed up with me later to see if all was
-		1293721	5.00 resolved.
		1289585	I tried the preliminary suggestions made by the Help Desk and, when those didn't work, I eventually found the answer I needed in Hermes. The article had been updated after I made my initial call, so I realize this was an evolving issue about a new 4.17 situation (accessing Staples as a new vendor in ECAT).
		4004400	The first time I sent the message it appears the staff skimmed over the original message and answered the wrong question. My question was never directly answered, although I made my situation even more clear in the second e-mail. It was a pretty straightforward question about product keys, but the staff seemed more interested in just telling me to go download the
		1284100	1.67ISO again rather than answering the actual question.No complaints overall. it was frustrating to have problems with the VPN to begin withI spent a lot of time and money trying to sort out this problemonly to learn it was systemic, rather than a personal problem with my own computer/modem/internet connection speed. Perhaps this5.00issue could not have been predicted

	7/26/2010 Help Desk::Call Center	1273537	I was having difficulty accessing Oracle calendar. I found out that we were not using Oracle anymore but using iCal, so they 4.17 were really unable to help, as there was nothing they could do.
		1262807	The staff wouldn't believe there was a localized technical problem with a routine network service. They had to be told many times by multiple people over the course of a month that a network service wasn't properly configured. Backchannel emails on the tickets that leaked to the users indicated that the staff believed the users who were having trouble were simply incompetent and sought to forward the issue to a call center instead of thoroughly investigated whether there was an actual problem. It finally involved the recruitment of multiple administrators at a high level to get the issue addressed. This 0.83 was a very dissatisfying experience for sure.
			Not having uploaded (large) files for ftp for several, having gotten lazy/used to just using web browsers for ftp downloads and email for sending, I needed a quick refresher on using Fetch for uploading. A quick lesson during a brief walkin was all I needed both the official help desk person and other staff present were friendly, professional, and efficient. One suggestion, though an FAQ that browsers generally can be used for downloading larger files these days, but that Fetch (or the Windows etc equivalent) is still needed for uploading, would have saved the trip in the first place. I know I looked
	Help Desk::Service Center	1299778	5.00 and looked before I made the trip/help request!
			I am satisfied in the way that the staff have been very professional, courteous, and trying to help. However, the laptop mysteriously started again after a couple of hours when it was diagnosized as system board problem. I didn't know the reason and hope someone can find out later. It is a Toshiba Portege
		1298367	4.17 A600. Thanks anyway.
		1291754	5.00They did a fine job.They did change the hard drive (this was the actual hard problem) but the hard drive comes without a boot partition so I was not able to even turn the computer on. I guess this is a Dell problem but from my point of view the ticket was not resolved to my satisfaction and that is the reason of the low grade on
		1271870	3.33 item 4. i requested a puck up of my computer. however, the person who was supposed to deliver the computer got the message only 7 days later. Apparently typing down the pickup order doesnt work. Only after the ISNT staff went and requested the
		1266440	2.50 pickup in person it worked.
	Help Desk::UNIX/Linux	1297326	This particular problem, needing to reboot the RedHat linux package server, is a recurring one. Rebooting the server allows me to patch but hopefully a more permananent fix is being worked on. As always, I am very happy with the response of 4.17 IS&T when I have a problem.
	RCC::EastCampus	1127808	Improve your ties to TNIS so that tickets like this don't take 6 months and three visits by you to resolve. Alternately, have someone knowlegeable about the actual network (rather than just computers) show up on the follow-up visits so that they are able to do something/ diagnose in a way other than what I am 2.50 able to do myself (internet speed checks).

					network at Edgerton (my understanding from other residents is
					that the wireless has had issues in the recent past as well,
					although they may have been resolved). The problem was
					"solved" quickly, but who knows how long it will last. I connect
					to my computer remotely from work (i.e. on MIT campus)
					frequently and these disruptions dramatically affect my ability
					to do this. The network needs to be legitimately fixed, not just
					temporarily patched up. I appreciate the hard work that the
					support staff put in, and I recognize that the state of the
					network is not their fault but it seems unfair that housing that costs the same as S&P/Ashdown has a network that is at least a
					decade behind in technology and is far worse off in terms of
					reliability. Again, I want to emphasize that I don't believe that
					any of this is the fault of the network staff (except, perhaps,
					their constant belief that the network is permanently fi! xed when it obviously isn't). Perhaps this is a higher level funding

					While I realize the issue was one that was outside MIT Help Desk expertise, I've had such good experiences with the Help Desk in the past, that I guess I expect miracles. My dissatisfaction is more a matter that some of people helping me treated me as if I was slightly incompetent. While I'm no MIT

			1281999		IS&T is the best!
			1275476	1.67	IS&T doesn't seem to support Maple. Unfortunately the staff didn't quite have an answer for me. I was able to make my project work enough to meet my deadline, but I will need to meet with someone in person, I think, to get this problem fully resolved. I always like working with the help desk staff, however, even if we can't always get the problem

			1291932	5.00	service! I was nancied very courteously and professionally. what was
					very disappointing was that I would have to leave my laptop my only machine for 4-5 days. Who can leave a production machine that long? I offered to bring it in at the exact time that they could start working on it, since I am just down the street. No, we cannot do that. So, I did not bring it in at all. I

			1285770	5 00	Jacob Morzinski took my call, and he very thoroughly researched the problem and suggested solutions. The issue involved my not receiving email messages from a listserve at Mass. General Hospital, where I'm a brain cancer patient. Jacob explained that the outside firm being used, talk.netatlantic.com, has a bad reputation, and MIT's spam quarantine company blocks mail coming from them. I passed along Jacob's explanation, and MGH was grateful for the "heads up." I was VERY impressed with Jacob's professionalism & his help!

Unfortunately, computing-help was not able to identify the actual cause and therefore could not suggest a solution or more importantly a means to determine if the problem happens again. The problem is rather esoteric so I not sure that it would be reasonable to expect computing-hel to resolve it. Computing-help did a good job in helping with individual problem, but I would have liked to see someone address it at a higher level. As things stand now, any use of ESS on tables with compound keys is suspect. That includes accessing most of the data warehouse tables. I would think that the IS&T folks who are recommending FileMaker, especially as a tool to access the Data Warehouse, would wa to confirm that something in my table definitions or the way I set up the ESS caused the problem, and probably identify wh was wrong so they could instruct o! thers not to make the same mistake. 			request to have someone check on the service. Then the response did not indicate whether anything might have been done in those 24 hours to fix the problem simply that at that point it looked like it was working. The problem I had reporte had in fact gone away, but the update service was still not working at the time that I got the response. Instead, any atter to run up2date produced the dreaded message to the effect t the metafile had a bad checksum. I tried using "yum clean" followed by "yum update" to make sure that the problem was not something at our end. That didn't fix it. This condition ha happened in my experience numerous times in the past and i was always corrected when the MIT satellite was put back int synchronization with the RedHat servers. It was because of t ongoing problem that we had switched most of our servers over from the MIT satellite service to using the paid-for commercial serv! ice directly from RedHat. I did not report th
