

CSS BILLING WG 4/2/10

AGENDA

Welcome Back; wiki "...CSS/Billing";

#5 - DIRECT BILLING w/ TNSC → Decision-Making: Do We Want to Pursue It?

#X - LAYOUT OF DTR LINK → Propose new text patterns

next steps

run a prototype
or
prepare a proposal

investigate side-effects in TNSC itself

technical feasibility?
political feasibility

short-term process chg w/ current stuff
vs long-term chg to log
the Direct Bill solution

moving to 10q? does it work?
running the existing product for
CSS objects

Quentin w/ Anne & Allen

Next Friday 4/9 Jan+Mark+Kelly+Chris+Pat to prepare a testing plan/scheme to hash this out for Training & PC Service

Conclusion:

Direct Billing is an important part of our toolkit for internal billing. ~~It is not a universal solution~~ (credit cards; other JV-like processes)

putting all this in a DB is a big win
