

Traxx - <http://dl.dropbox.com/u/7997532/Spentrax/records.html>

I performed my observations on my phone. (480 x 800px) Screenshots were taken on a desktop.

1. Text headings have very little left-whitespace in the record tab, looks odd. [Aesthetic - minor]

2. Top tabs leave the view when scrolling down, have to scroll back up to move between tabs. [Flexibility and Efficiency - minor]

3. Date defaults to 01/01/2011 on record page; need to enter today's date manually. [Flexibility and Efficiency - major]

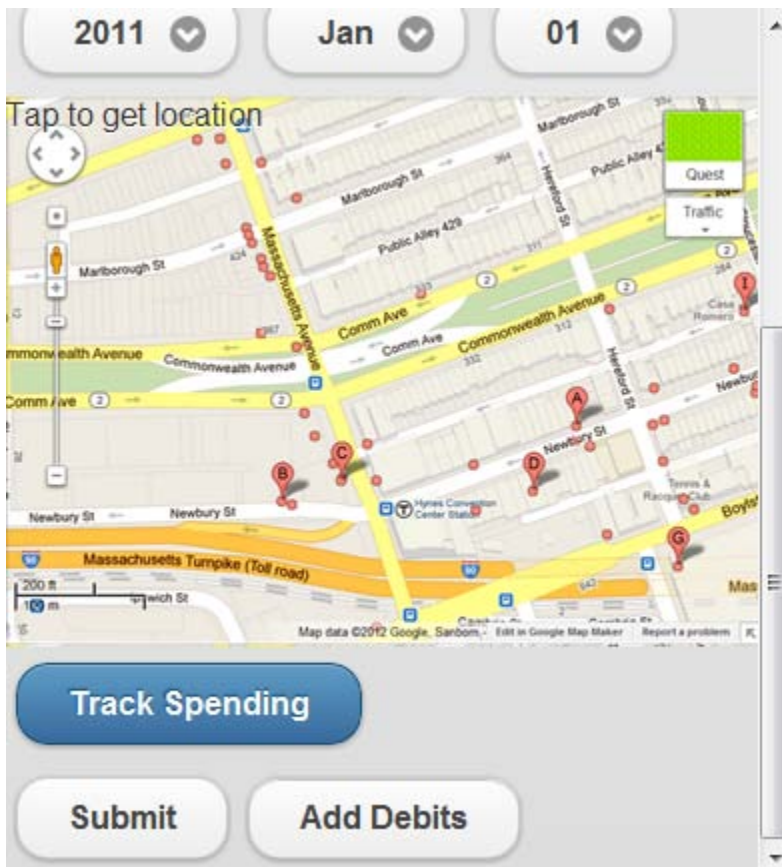

4. Action of buttons on the bottom on the record tab is fairly ambiguous. [Error prevention - minor]

5. Unclear what the dark blue is supposed to signify, especially since "submit" is the action button for the page. [Consistency and Standards - minor]

6. Need to scroll to the bottom of the record page in order to navigate to the 'add debt' or 'track spending' pages. [Flexibility & efficiency - minor]

7. Unclear what "track spending" is supposed to do. (Is it supposed to look up your location.)  
[Consistency & Standards - minor]

8. Unclear what a "from cash to debit" transfer would actually mean. Describe differently? [match the real world - major]

The image shows a dialog box titled 'Transfer' with four tabs: 'Record', 'Transfer' (selected), 'Debts', and 'Analyze'. The dialog contains the following fields and controls:

- Transfer \$**: A text input field.
- From**: A dropdown menu with 'CASH' selected.
- To**: A dropdown menu with 'Debit/Credit' selected.
- Date**: Two dropdown menus showing '2012/Apr' and '01'.
- OK**: A large button at the bottom.

9. Switching tabs takes a while as it seems to load over the network. Have loaded all at once? [Flexibility and efficiency - minor]

10. Transfer field is against the right margin of my screen.

Record Transfer Debts Analyze

Transfer \$

From CASH

To Debit/Credit

2012/Apr 01

OK

11. Not clear what the user is able to search on. Can they search on dollar amount? Person? Keywords like "OWES"? etc. [Error prevention - major]

Record Transfer Debts Analyze

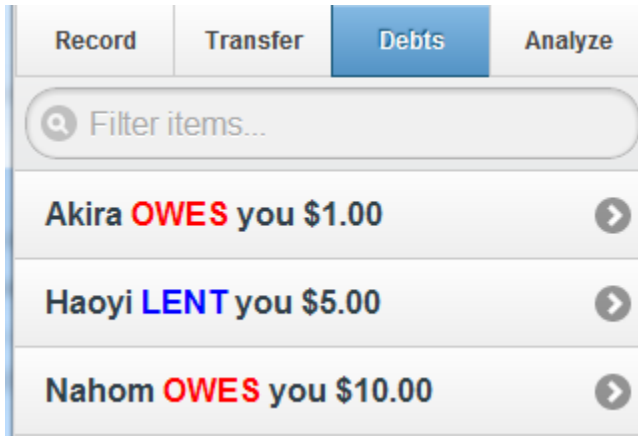

Filter items...

Akira **OWES** you \$1.00

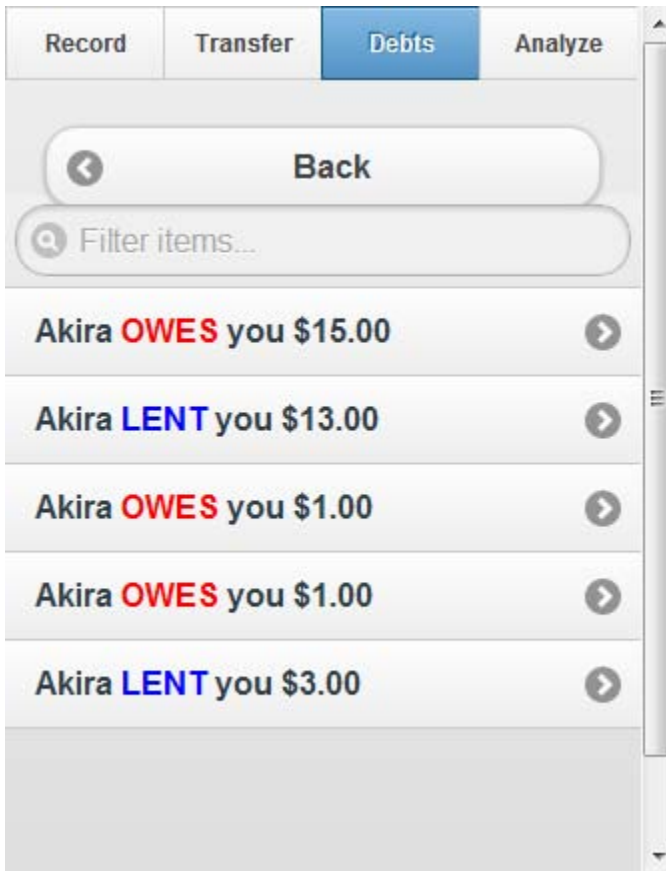

Haoyi **LENT** you \$5.00

Nahom **OWES** you \$10.00

12. Colors for OWES and LENT are strong, but don't necessary give a clear meaning. It makes someone owing you money seem bad, and you owing someone else money seem good. [Match the real world - minor]

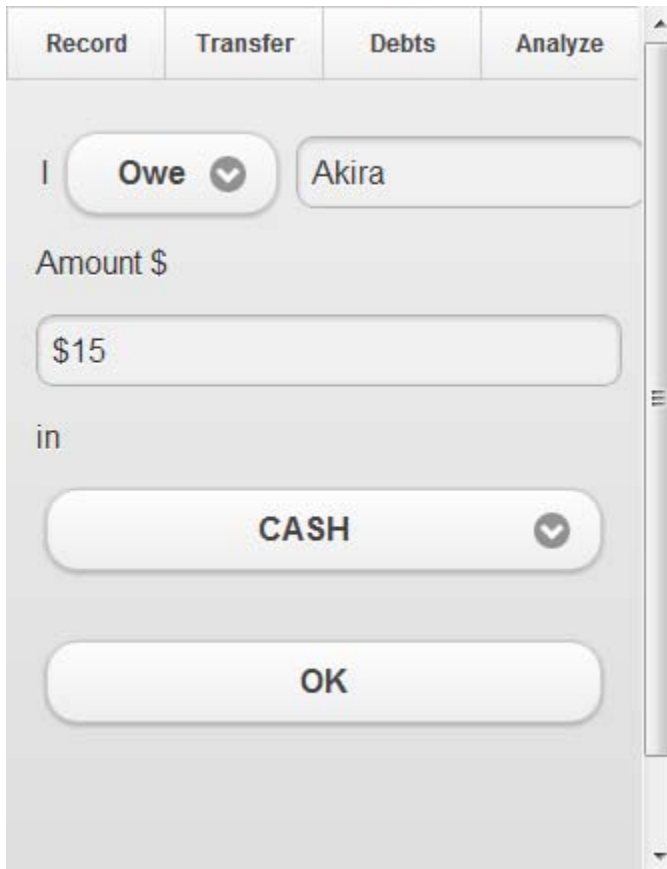

13. After clicking on outstanding debts, the 'view history for person' view does not clarify what is going on [Visibility of system status - major]

14. No space between back button and filter items text box on 'view history for person.' [Aesthetic - cosmetic]

15. Debts->"Akira OWES you..." ->"Akira OWES you..." : Unclear you're on a deep page editing an existing transaction. (Visibility of system status - minor)

16. Have "\$" prefix in edit field. Unnecessary and potentially confusing. [Minimalist design - minor]
