6.813 - HW2 - TrueVote

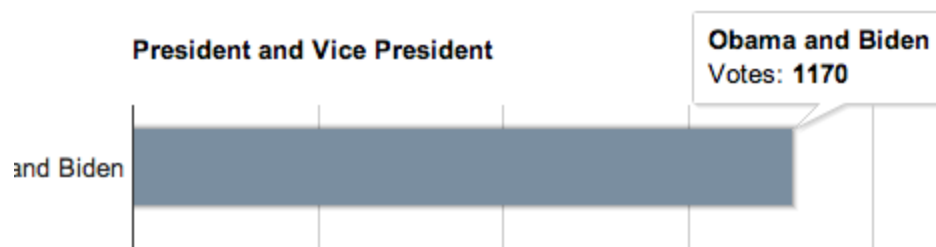

Comments

- Positives: the overall appearance of the app is very nice and clean
 1. Large buttons with clear separation ensure safety
 2. Large font size provides good readability
 3. Left bar provides a good summary of current progress (system status)
 4. Minimal buttons give good aesthetic design
 5. Clear instructions
 6. Site is very responsive
- Negatives: cosmetic
 7. Instructions pop up very briefly on page load
 8. Mixture of serif/sans-serif

President and Vice President
Johnson and Gray

9. Maybe display number of votes on bar (instead of necessitating hover)

- Negatives: minor
 10. After submitting all votes, there is no link to return to homepage
 11. Back in browser resets/logs out (login not built-out yet though)
 12. No logout button during audit
 13. Cannot fix individual selection, must fix all following as well

**You are about to restart from
"Representative in Congress" on the
current ballot.**

You will have to re-enter all information after that. Would you like to continue?
