

# HW2 – 6.813

Malcom Gilbert

“I worked with nobody else.”

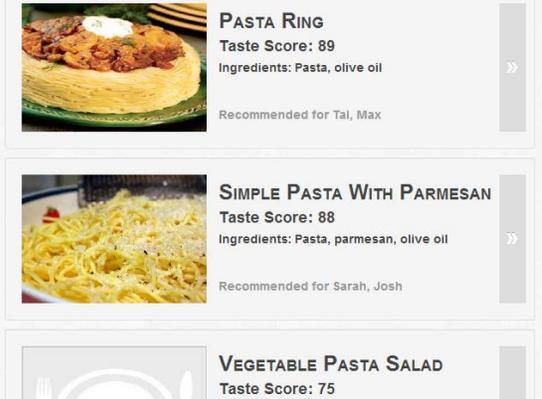

## Front Page

#	Issue/Severity	Usability Heuristics	Images
1	Overall great use of minimalism  <b>Severity: Good</b>	Reduction, Minimalist design	N/A
2	Changing the background color of the image card on hover  Issue mitigated by changing the cursor to a pointer  <b>Severity: Minor</b>	Feedback	

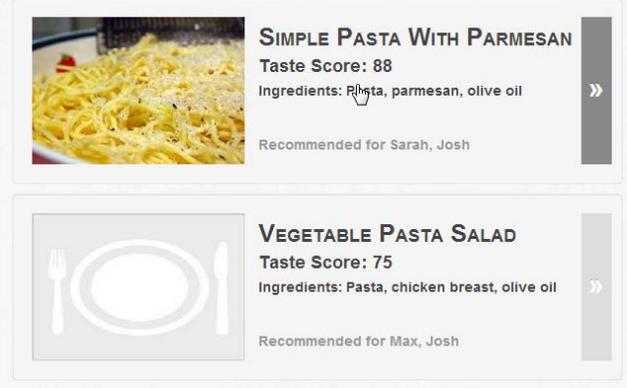

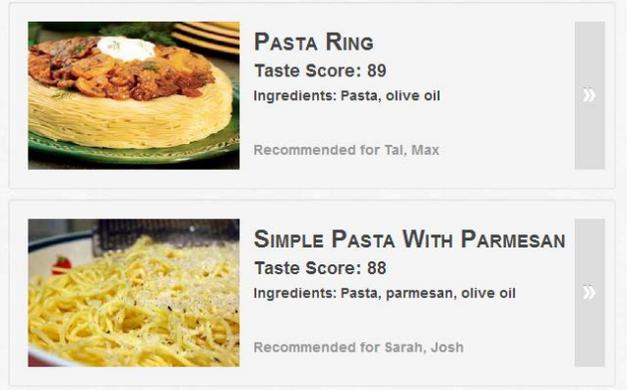

# Front Page

#	Issue/Severity	Usability Heuristics	Images
3	<p>Not really sure what clicking on one of the icons will do initially</p> <p>Mitigated by the immediate feedback of seeing the results show up in the search bar.</p> <p><b>Severity: Minor</b></p>	<p>Help and Documentation</p>	 <p>The image shows a user interface for a search application. At the top is a search bar with the placeholder text "Search for ingredients...". Below the search bar is a user profile card for "Josh". The card features a circular profile picture of a man in a dark jacket and a beanie, standing outdoors. Below the picture, the text "Josh likes:" is followed by two buttons: "Pasta" and "Chicken". Below the profile card is a small tag that says "x josh's likes". At the bottom of the image is another identical profile card for "Josh" with the same profile picture and "Josh likes:" section containing "Pasta" and "Chicken" buttons.</p>

# Search Page

#	Issue/Severity	Usability Heuristics	Images
4	<p>Not really sure what the 'recommended for' is about.</p> <p>If I am searching for a specific food, why am I getting recommendations for other people?</p> <p><b>Severity: Major</b></p>	<p>Help &amp; Documentation</p>	
5	<p>Maybe make it more clear that results are sorted by "Taste Score"</p> <p>Possibly add column for sorting by different metrics (closest match etc...)</p> <p><b>Severity: Major</b></p>	<p>User Control &amp; Freedom, Flexibility &amp; Efficiency</p>	

# Search Page

#	Issue/Severity	Usability Heuristics	Images
6	<p>Possibly change the background color of the entire box when it is hovered over.</p> <p>Again issue is mitigated by changing the color of the arrow</p> <p><b>Severity: Minor</b></p>	Feedback	
7	<p>Previous search query is shown at the top of the page</p> <p><b>Severity: Good</b></p>	Recognition, not recall	
8	<p>Good use of size to set off the title text</p> <p><b>Severity: Good</b></p>	Contrast	
9	<p>Nice simple, repeated structure for search items</p> <p><b>Severity: Good</b></p>	Internal Consistency, Reduction, Minimalist Design	

# Shopping List Page

#	Issue/Severity	Usability Heuristics	Images
10	<p>No way to get back to the list of search results/or go to next item</p> <p>Possibly add arrows to move to the next item to facilitate navigation</p> <p><b>Severity: Major</b></p>	User Control & Freedom	<p>The top image shows a recipe card for 'Pasta Ring' with a table of ingredients: Pasta (6) and Olive oil (17). The bottom image shows the same recipe card with red arrows pointing left and right, indicating a lack of navigation options.</p>
11	<p>There are some issues when clicking on the check box item.</p> <p>Between clicking on the cell and the checkbox, some inconsistencies pop up</p> <p><b>Severity: Major</b></p>	Error Prevention / Consistency and Standards	<p>The top image shows a table with ingredients: Pasta (46) and Olive oil (17). The bottom image shows a table with ingredients: Pasta (16) and Olive oil (17). Both images show the 'Pasta' checkbox selected.</p>

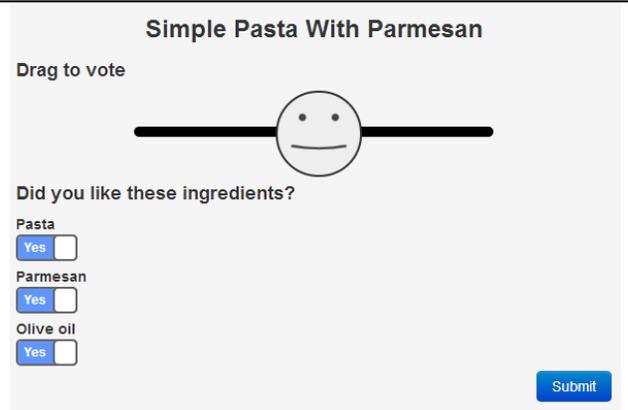

# Shopping List Page

#	Issue/Severity	Usability Heuristics	Images
12	<p>The hover color is the same as the background color for alternating row elements.</p> <p>So on every other row, the color (or value) of the row does not change</p> <p><b>Severity: Minor</b></p>	Feedback, Consistency	 <p>The image shows two screenshots of a shopping list table. The top screenshot shows a table with two rows: 'Pasta' and 'Olive oil', both with an amount of 13. The bottom screenshot shows the same table, but the 'Olive oil' row is highlighted with a light blue background, and a mouse cursor is hovering over it.</p>

# Recipe Page

#	Issue/Severity	Usability Heuristics	Images
13	<p>Item name and picture is repeated in the middle section</p> <p><b>Severity: Good</b></p>	Recognition, not Recall	<p>Pasta Ring</p> 
14	<p>Items should only be able to be checked off in order.</p> <p>Otherwise, the user is not really following the recipe.</p> <p><b>Severity: Major</b></p>	Match the real world	<ul style="list-style-type: none"> <li><input type="checkbox"/> Cook pasta according to package directions.</li> <li><input type="checkbox"/> While pasta is being prepared, make sauce in skillet. Add necessary ingredients and seasoning as you like.</li> <li><input checked="" type="checkbox"/> Remove from heat and add cooked pasta-</li> </ul>
15	<p>No error message if the forms are not filled out (should not always be a success)</p> <p><b>Severity: Major</b></p>	Error reporting, diagnosis, and recovery	<p>Share Recipe <span>×</span></p> <div style="border: 1px solid #ccc; padding: 5px; margin-bottom: 10px;"> <p><b>Success!</b> Shared Vegetable Pasta Salad with <span>×</span></p> </div> <p>Recipient name... <input type="text"/></p> <p>Email... <input type="text"/></p> <p>or</p> <p>Phone number... <input type="text"/></p>

# Feedback Page

#	Issue/Severity	Usability Heuristics	Images
16	<p>Might want to consider keeping the smiley face metaphor instead of the toggle buttons</p> <p><b>Severity: Cosmetic</b></p>	Internal Consistency	
17	<p>Perhaps change the 'submit' text to something like 'cast vote' so that users will remember what they will be doing when they submit their vote.</p> <p><b>Severity: Major</b></p>	Recognition, not Recall	
18	<p>User is addressed by name.</p> <p><b>Severity: Good</b></p>	Feedback	
19	<p>I like how the toggle buttons change to indicate a change in the form that will be submitted as you drag the slider.</p> <p><b>Severity: Good</b></p>	Visibility of System Status
