Synology NAS Servers

General

- Synology [Support Knowledge Base](#)
- Synology [Download Resources](#)

Email

- How to [set up and turn on the mail server](#) on your Synology NAS. This is a great solution if you want to store archived emails. At MIT it is not recommended you try sending emails through the Synology, but you can certainly use your Synology to store old emails in case your Exchange account gets too full.
- How to reset [the IMAP email server](#) on a Synology

Security

- [Firewall implementation](#) to deny all users except MIT users (must have DSM OS version 5.0-4458 or later installed)
- In light of the Poodle flaw, [disable SSLv3](#)

File Share

- How to set up and use the [Synology Cloudstation](#) (Automatic updating file sharing functionality)
- How to [create SHARE folders](#) on Synology NAS

Backup
